Transportmagasinet

Focus on editorial content

Our editorial focus is on freight transport - by land, sea and air. We have a special focus on road transport, as more than 90 percent of the goods in Denmark are transported by truck.

We look at transport from the haulier's point of view. We test trucks, do interviews with industry professionals and portraits of hauliers.

Our journalist at Christiansborg follows the political events that can have an impact on the industry up close.

Audience

Transportmagasinet is an industry newspaper for decision-makers in the Danish haulage and transport industry. Most of our readers have their own haulage business, and they use Transportmagasinet to stay informed about the industry, competitors and new equipment.

Advertising – Print

Eksponer din virksomhed i den rette kontekst

Target your marketing and be seen in the right context. Nordiske Medier's newspapers have more readers than other professional media, where many of our readers are important decision-makers. The print newspapers tune into relevant focus areas in the respective industries, where your company has the opportunity to make itself visible in specific themes and magazines through various ad formats.

The selection of ad formats is many. Some classic examples of formats can be seen on the next page. We also offer crea-

tive formats to increase the possibility of greater attention - text and images do not always do it alone.

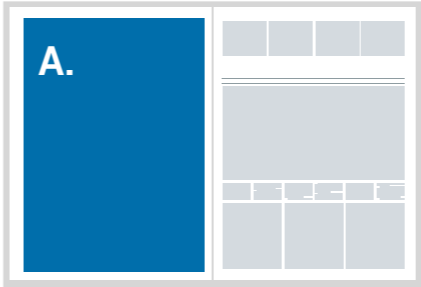

It is possible to place the ad in connection with relevant, editorial content e.g. in sections and themes that help give your marketing increased credibility and ensure that it is read and not just seen.

Print ads have long-lasting effects and great branding value So even though there has been a significant development in online advertising, we still see print ads as an effective means

of visibility for many years to come. The print ads are also in the electronic iPaper and in the PDF edition.

The iPaper and PDF editions are used from both computers or tablets and are at the same time the newspaper readers' newspaper archive. We are constantly working to optimize the circulation so that we hit the target groups even deeper and more precisely than other media can offer. Of course, we do this to always be able to offer targeted advertising opportunities.

Forward fallback banners

for use on mobile and tablet screens if HTML and script banners are not made responsive.

Advertisement guidelines

The difference between advertisement and editorial content must be clear to the readers. Therefore, ads must differ from the editorial layout - both on the portal and in the newsletter, so readers are not misled and think that an ad is an article written by the editorial staff.

Generally, advertisers are asked to use a different font than ours. The word "Advertisement" appears on the website automatically just above the banner. However, the term "Advertisement" should be stated clearly at the top of the ad when advertising in the newsletter, so there is no doubt that it is an ad - in doing so, we follow the legislation in this area.

If we consider the ad too close to the editorial texts, we will request the change font and/or add the company logo so that it is clear that it is an advertisement. We do this to live up to the rules laid down by the Consumer Ombudsman.

Furthermore, all advertisements should only concern own business and own products - i.e. none misleading or bad publicity of the competitors - in doing so, we follow the Marketing Act.
