THE SWEDISH LIFE SCIENCE INDUSTRY GUIDE

Swedish Life Science Industry Guide 2019

Life science in Sweden is an industry experiencing rapid growth. Collaboration is a prerequisite for the successful development of this sector. This requires presence and knowledge of other players. The large companies are looking for partnerships with small and vice versa. Academia and industry networks increasingly close ties and health care is now a given partner.

By presenting your business in the Swedish Life Science Industry Guide you can reach the entire industry and potential partners in a whole year. 2019 edition of the Swedish Life Science Industry Guide is the fifteenth of the order and we know from experience that the wizard used as a Bible when seeking new contacts, services, goods and collaborations.

Swedish Life Science Industry Guide is distributed by Life Science Sweden, both online searchable with Google and in printed form in edition 1 in 2019 by the magazine Life Science Sweden with a circulation of about 8,000 copies. The Guide is distributed in addition to all Life Science Sweden's event. It is also linked to the lifesciencesweden.se, and in our newsletter.

Instructions for participation in the Swedish Life Science Industry Guide 2019

In the presentation model 1/3 page includes:

- Your company logo.
- E-mail address and other contact information.
- Picture of CEO with related quotes or company vision.
- A business description where you present your services, products or activities.
- Any picture can be on a product or something else, this is then linked to your website.
- All text information in web guide is searchable, making it easy to find your marks, specific services or products.
- The company name is bolded in the listing A-Ö so that visitors understand that there is more data to read about the company.
- Your company will be listed in the right column on lifesciencesweden.se where all companies with business presentation presented "rolling" during one year.
