The Swedish Life Science Industry Guide 2023

Life science in Sweden is an industry experiencing rapid growth. Collaboration is a prerequisite for the successful development of this sector. This requires presence and knowledge of other players. The large companies are looking for partnerships with small and vice versa. Academia and industry networks increasingly close ties and health care is now a given partner.

By presenting your business in The Swedish Life Science Industry Guide you can reach the entire industry and potential partners in a whole year. The 2023 edition is the eighteenth of the order and we know from experience that the wizard used as a Bible when seeking new contacts, services, goods and collaborations.

The Swedish Life Science Industry Guide is distributed by Life Science Sweden – both online searchable with Google and in printed form in international issue no.1 2023 in English. This issue is distributed at all of Life Science Sweden's 6 annual international partnering-congresses 2023. It is also published on lifesciencesweden.se with around 60,000 page views/week!
