

VISION™ T5

An intuitive touchscreen control for **effortless operation of cutting processes.**

EMPOWER YOUR CUTTING OPERATION.

The Vision T5 is proof that a state-of-the-art control doesn't have to be complicated. Featuring an ergonomic touchscreen, simple toggle switches, and dual USB ports, every inch of the control has been expertly designed for ease of use and operator efficiency. But what really sets the Vision T5 apart is an ultra-intuitive interface that dramatically streamlines operation and boosts productivity.

**Reduces
setup time**

**Enhances
multi-tasking**

**Simplifies control
of advanced
processes**

Guided operation for faster, more efficient production.

ESAB's Operating Wizard provides clear, step-by-step instructions from power-up through the entire cutting sequence. This innovative tool helps operators speed up the setup process and ensures exceptional cut quality.

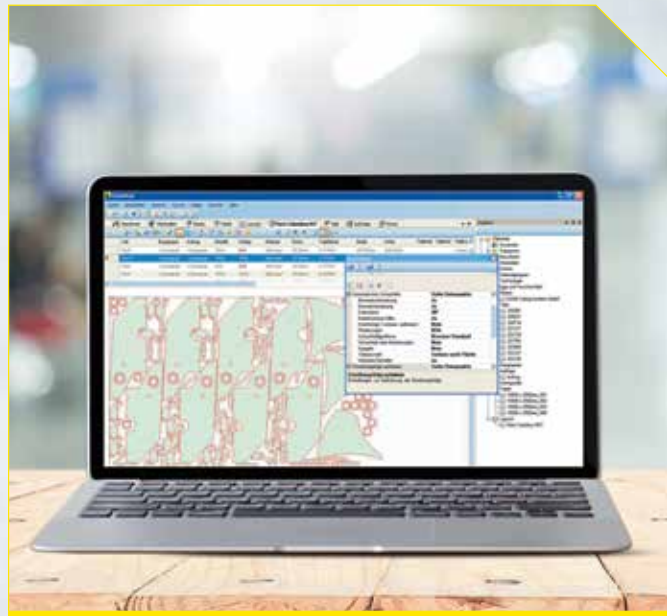

- Cuts training time in half
- Includes steps for torch setup and machine positioning
- Built-in shape library simplifies part programming
- Automatically applies small hole cutting techniques when appropriate

Complete control. Maximum productivity.

Only ESAB offers a complete, integrated cutting solution. The Vision T5 gives operators control of all cutting and marking process tools, including plasma beveling, triple torch oxy-fuel beveling, text marking, layout line marketing, laser cutting and beveling, grinding, drilling, and even special applications. External boxes are eliminated and a built-in Process Database automatically sets cut parameters.

- Controls 1 to 12 stations without additional panels
- Program parking and power fail recovery
- Real-time graphics with zoom allow operator to see exactly where the tool is cutting
- Remote diagnostics for faster technical support and troubleshooting

Cutting-edge software to get the most out of your machine.

The Vision T5 is compatible with ESAB's industry-leading software designed to improve performance and efficiency. Below are just some of the options available that allow you to realize the full capabilities of the control and your entire cutting system.

- **Columbus™** — Fully automates program and process setup to optimize cut quality, as well as generates nests that maximize plate utilization
- **CutCloud** — An online management platform that tracks productivity and enables data-driven decision making
- **EasyShape™** — Simplifies programming of even complex shapes and automatically applies Precision Hole Technology™ where applicable

UNRIVALED SERVICE AND SUPPORT.

Like all ESAB products, Vision T5 is backed by our commitment to superior customer service and support. Our skilled customer service department is prepared to quickly answer any questions, address problems, and help with the maintenance and upgrading of your ESAB equipment and software. We offer:

- Value packages, including machine and process audits to maximize your investment
- Proactive preventive maintenance programs and maintenance contracts to keep your equipment and software up and running
- ESAB plasma consumables for the perfect cut
- Specialized repair services
- Retrofit upgrade products and packages for the latest in machine, control, and software technology
- Complete product and process training, including advanced training programs

And, our products are backed with the most comprehensive warranty in the business. With ESAB, you can be confident that the product you purchased will meet your needs today and in the future. Ask your ESAB sales representative or distributor for a complete ESAB solution.
