Banner advertising on the front page

Our website is responsive and adapts banners to display correctly on all screens.

The banners share space with up to 3 others. However, title banners stand-alone, while sticky banners share space with up to 2 others.

The banners rotate when changing pages.

All banners can be either static or animated - HTML5, gif, or script except the title banner.

Animated banners come in the following formats: .jpg, .gif, .png or HTML5.

* Sticky banners, corner page banners, and side banners are only displayed on the desktop.

The prices assume that you are a member company at the medium.

See in the back for technical specifications and conditions.

Technical specifications - online

Deadline

The deadline is agreed upon with the graphic designer, who forwards the booked advertising campaign, specifications, and the deadline.

Delivery of finished material

The deadline for delivering finished material is two working days before start-up. Advertisement incl. a link to the landing page is sent directly to the e-mail: online@nordiskemedier.dk

Graphic assistance

If you need a graphic designer to help with your design, there are the following requirements for images, logos, and text.

- Images must be min. 80 DPI in the file formats .jpg, .tiff, .eps, .psd and .png.
- · Logo and graphic elements are delivered as .eps or .ai vector graphics.
- The text is sent separately in a .docx format or the email with the material.

We must receive your material for production no later than ten days before the start advertising campaign.

When banners are ordered and reserved for two months min., we prepare the banners

free of charge, otherwise, the price is DKK made responsive, we need a fallback banner 500 per banner.

Banner Advertising

Banner Advertising Our website is responsive and adapts banners to display correctly on all screens. Please note that banners are readable on different screens.

The banners share space with up to 3 others. However, title banners stand-alone, while sticky banners share space with up to 2 others. The banners rotate when changing pages.

All banners can be either static or animated - HTML5, gif, or script - except the title banner. Animated banners come in the following formats: .jpg, .gif, .png or HTML5.

Specifically for HTML5 banners

When delivering HTML, use a zip file with the entire source material. The zip file must be max. 10 MB.

HTML5 files that stay within a frame of 20 seconds are at an advantage. HTML5 files are only used for banners on the portal, as the file type does not work with email programs. If HTML and script banners are not for use on mobile and tablet screens.

Guidelines for Advertisers

It must be clear to the readers what content is advertisements and what is editorial articles. Therefore, advertisements must differ in layout - both on the portal and in the newsletter, not to mislead readers into thinking that an advertisement is an article.

In general, we ask advertisers to use a font other than ours. On the website, the word "Advertisement" appears automatically just above the banner, but when advertising in the newsletter, the word "Advertisement" should appear at the top of the ad so that it is not beyond any doubt that it is an advertisement - we then follow the legislation in the area.

If we consider the advertisement too close to the editorial texts, we will request to change the font and/or add the company logo, making it clear that it is an advertisement.

We do this to comply with the rules drawn up by the Consumer Ombudsman. Furthermore, you must only market for your own company and products - i.e. no misleading

or bad mention of the competitors - to comply with the Marketing Act.
