

WIENET HMI ECO TOUCH PANELS

VISUALIZATION, OPERATION + DIAGNOSIS

The complete package for machines + plants

YOUR ADVANTAGES:

- + **Seamless data exchange**
between the hmi PLAN software and the samos® PLAN 6 planning software
- + **Easy programming**
via Ethernet or USB client
- + **FTP-Server**
alarm message by E-Mail
- + **VNC functionality**
- + **Customized design**
„MY LOGO“

PERFECT SOLUTION BUNDLE.

In combination with samos® PRO COMPACT you avoid errors in the naming of your safety functions right from the start. This is made possible by the seamless data exchange between hmi PLAN and samos® PLAN 6. Rely on our intuitive complete solution and shorten the commissioning time of your panels with just one click.

- Programmable with hmi PLAN via Ethernet/USB
- Convenient import of variables with samos® PLAN 6
- On-board Modbus TCP in SP-COP2-ENI
- Interface drivers for 40 manufacturers of controllers
- Easy toggling between Modbus master and slave

VNC FUNCTIONALITY.

With our HMI-ECO panels, it is now possible to control your machine with your smartphone or tablet. Virtual Network Computing (VNC) makes it possible. This gives you flexibility when it comes to controlling as well as to monitoring your machine.

HMI PLAN: EASY + INTUITIV + ERROR-FREE

The visualization software for your application.

- Easy programming via Ethernet or USB client
- Convenient data exchange with manufacturer of controllers
- Export and import functions for variable lists
- One project file for all variables
- Simple conversion between variables

CUSTOMIZED DESIGN.

“MyLogo” offers you our panels in your own design. This ensures the consistent design of your machines. Starting from orders of 100 panels.

CUSTOMIZABLE

- Screen size
- Color
- Logo
- Printing
