

# Azelis Food & Health News

## Make your products taste unique, home cooked and 'chef prepared'

Azelis represents Activ International – a worldwide specialist of savoury solutions and natural colours, clearly positioned as a quality solutions provider. Activ International is able to propose applications to demonstrate the efficiency of the flavours, extracts or solutions to enhance processed food.

### Product lines include:

- **Seafood Marinextract™:** unique items with the profile of freshly fished seafood.
- **Flavours** ranging from meat, seafood and vegetables, developed with the target to bring colourful and tasteful profile of chef's cuisine.
- **Chef's Grill™** line, obtained through a US patented exclusive process; the Chef's Grill™ can be utilised as such or co-processed with other raw materials to mimic the taste of backyard-charred meats.
- **Culinary solutions:** a straight answer to industrial use, developed following customer demand. Flavours, spices, colours and technological ingredients mixed together, saving time and money on processing.
- **Ethnic pastes:** testimony of their expertise in cuisine, this line brings richness of oriental cuisine to many applications.
- **Colors:** taking advantage of its integrated factory in Peru, carmine, carminic acid and annatto are available with consistence of quality and supply.

The colours and flavours have been designed for use in a wide variety of applications. Besides seafood, meat, sauces, soups, seasonings, snacks and ready meals, they also have colours for confectionery, bakery, dairy and even cosmetic industries.

In addition to Halal and Kosher, Activ International is currently the leading manufacturer of USDA Certified Organic flavours for the rapidly growing all-natural, organic food market.
