

Reduce your carbon footprint

Reduced environmental impact from production, storage and freight.

Primoreels® pallets contain more than twice the number of lids.

Thinner lids.

Primoreels® system enables customers to operate with the worlds thinnest materials for sealable lids - as thin as PET in 23 or 36 microns.

Eliminate snap-on cover lids.

Primoreels® PET lids have a superior puncture resistance so, cover lids can be diminated.

Significantly less waste material.

- Skeleton waste is reduced in the production of lids.
- Primoreels® customers waste is reduced to a cardboard reel and sealed delivery bag.

Waste from 10,000 die-cut lids.

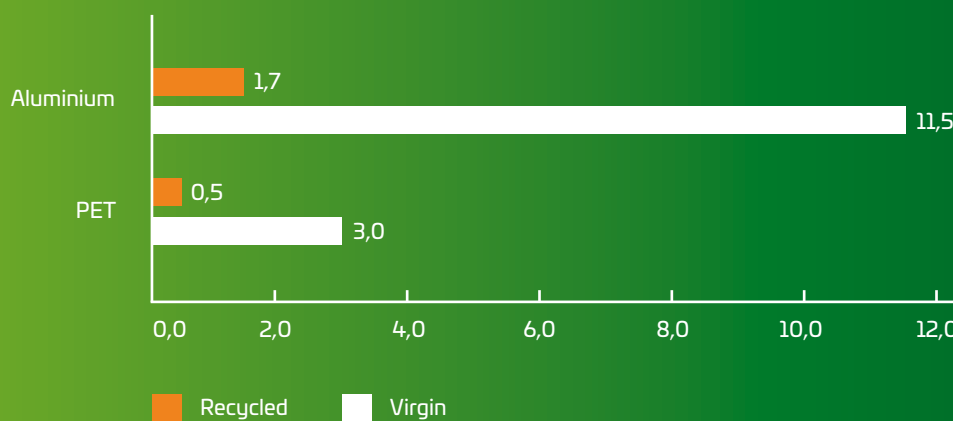

Waste from 25,000 Primoreels® lids.

Cut your carbon impact

CO2 emissions when producing PET lids are significantly lower than for aluminium lids.

Note: All figures are kilograms carbon dioxide equivalents per kilogram of material produced (kg CO2/kg). The bars compare the carbon intensity of the material when produced from virgin resources or from recycled materials.

Primoreels A/S

Primoreels A/S was founded in 2008, but has its roots in a filling machine company with more than 60 years of experience within the dairy industry. Primoreels® has become an established partner for manufacturers in the dairy sector and the water/juice industry, and we have a reputation for timely, high-quality, intelligent solutions, that satisfy our customers. We bring dairy packaging to the next level in terms of efficiency and lower costs.

Today, the Primoreels® system has been successfully installed on numerous high-capacity machines around the world. We can also help clients with older filling lines to enjoy the advantages of the system, as we are able to provide stand-alone units that can be fitted to almost all existing filling machines – no matter the brand and year of manufacture.
