

CONNECTING KNOWLEDGE – CREATING MARKET LEADERS

HF Container Innovative Solutions

YOUR TECHNICAL PARTNER

HF Cotainer Flex

Wear-resistant cables resistant to UV radiation, oil and fire.

HF Y-Splitter

Distribute power for 2 Reefer units.

HF Splice kit III

Splice power cables in a quick, secure and consistent manner, reducing the risk of fire and electric transition.

HF Splitter Box

Electrical interlock system gives the best possibility of safe and easy operation on the new 1-2 splitterbox. The box has light buttons which indicate the status of each connection. Smart electrical control restart itself for 3 times, if it finds a failure on 1 connection. Each connection is isolated from the other, thus if one fails, it will not influence the other at all.
