

EWQ TICKET UNITS

EWQ-EL

EWQ-EL Ticket Unit (2020150)

The EWQ-EL Ticket Unit is freely movable - no fixed installation. By pressing the push button, it feeds out a pre-printed ticket. The pre-printed tickets can be customized with own logos and colours. The Ticket Unit runs on two D-size batteries and the lifespan of the batteries is around two-three years. The text of the display can be customized to the customer needs. The Ticket Unit is made of robust materials: stainless steel and safety glass.

EWQ-8L

EWQ-8L Ticket Unit (2020132 + 2020133)

The EWQ-8L Ticket Unit contains a heat printer. It stands on a movable pedestal - no fixed installation. The Ticket Unit can handle up to eight different service groups. Eight Ticket Units can be used parallel to each other, for example one at each entrance. The Ticket Unit requires an electric power socket nearby the unit. The service group texts can either be as stickers or with small LCD displays. The text(s) can be easily changed afterwards.

EWQ-E

EWQ-E Ticket Unit (2020102 + 2020103 + 2020106)

The EWQ-E Ticket Unit stands on a movable pedestal - no fixed installation. By pressing the green button it feeds out a pre-printed ticket. The pre-printed tickets can be customized with own logos and colours. The Ticket Unit runs on two D-size batteries and the lifespan of the batteries is up to two years.

COMING SOON: EWQ-TOUCH

EWQ-TOUCH Ticket Unit (2020151)

The EWQ-TOUCH Ticket Unit contains a heat printer. It stands on a movable pedestal - no fixed installation. The Ticket Unit can handle up to eight different service groups. Eight Ticket Units can be used parallel to each other, for example one at each entrance. The Ticket Unit requires an electric power socket nearby the unit and the EWQ Master Unit (2020138). The service group texts can be easily added / removed or changed.
