Powerbank battery for use with UV BARx1

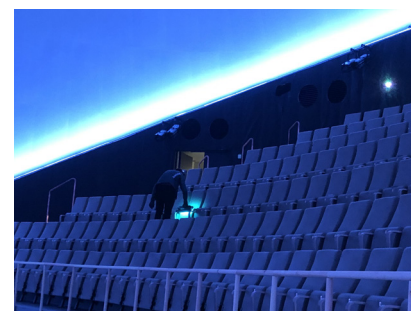

EFSEN UV POWERBANK makes it possible to work more freely without being dependent on a power cord when using the UV BARx1

EFSEN UV POWERBANK provides 150Wh of energy, suited ideally for long time use when cleaning larger spaces with the UV BARx1. The powerbank allows you to walk around freely away from a power outlet.

The lightweight and powerful EFSEN UV POWERBANK is convenient to use and carry. Electrical equipment like the EFSEN UVBARx1 utilizes the integrated AC Power outlet whilst the integrated USB ports allow to charge mobile phones. The EFSEN UV POWERBANK has a charging time of 6 hours.

UV cleaning in a plantarium

Technical details

Capacity	150Wh 3.7V 40800mAh	
Input	5V~20V 40W max (Type-C)	
	12V/5A(DC 12V)	
Output	DC 12V	12V/5A
	USB*2	5V/2.4A
	Type-C	5V~20V 40W max
	AC	110V/60Hz~240V/50Hz
	Jump Starter	12V/400A(Instantaneous)
Dimension	230mm*81mm*81mm	
Weight	1,75kg	

EFSEN UV & EB TECHNOLOGY has been designing high-end UV-systems with safety in focus since 1986.
