

AUTOMOTIVE PACKAGING

Since 1999, Wellplast has developed innovative packaging solutions, turning our customers logistical challenges into smart and sustainable solutions. Today, Wellplast is a valued supplier for known brands in the automotive sector.

We offers solutions for:

Collapsible packaging for efficient returnflows

Superior nesting capacity for maximized filling ratio

Scratch free packaging of parts

Fixating sheets, interlayers and grids

WCI® corrosion protection

Adaptable ESD protection

Plastic pallet systems

Packaging of dangerous goods

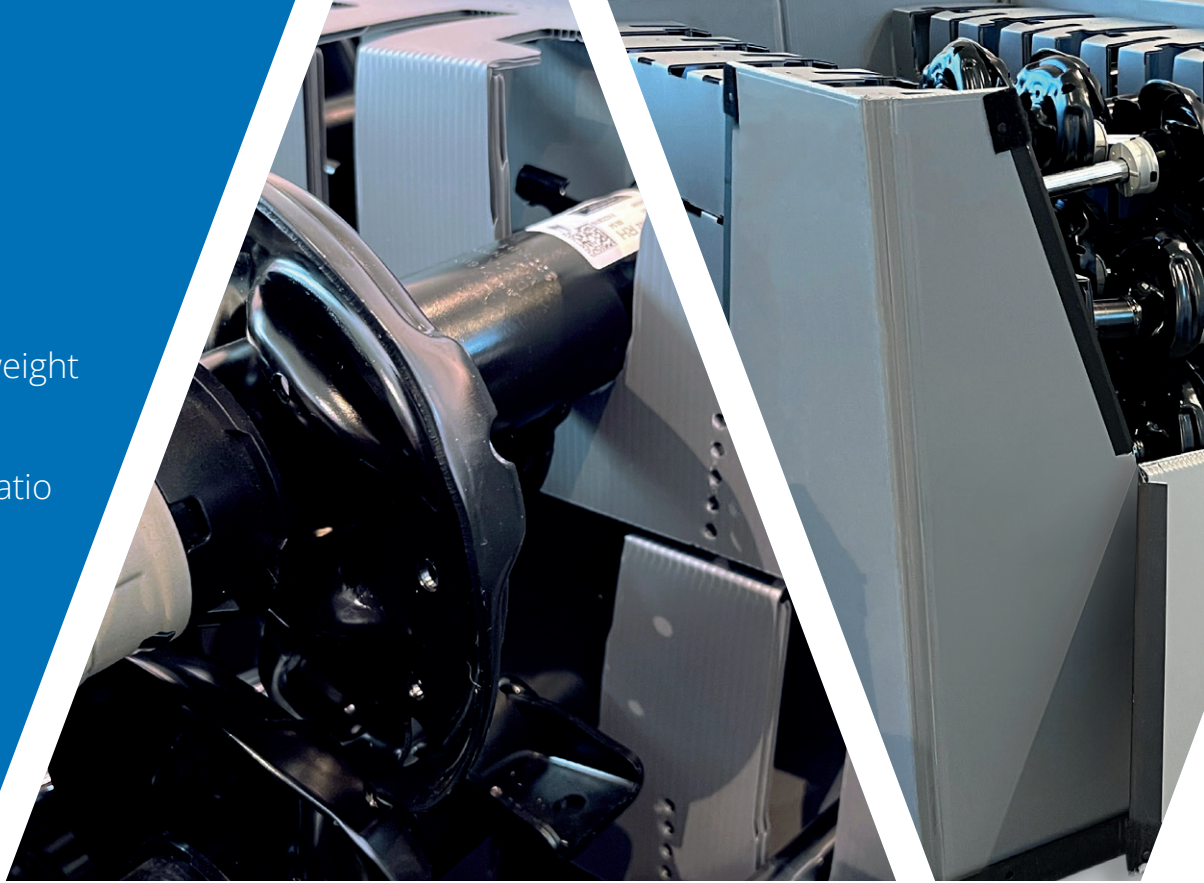

Our services:

We offer our customers advising, samples, prototypes and test packing.

Shock absorbers

- Robust and light weight
- Durable materials
- Maximized filling ratio
- Clean warehouse environment

Wellplast materials

- Durable
- Recyclable
- Lightweight
- Made in Sweden

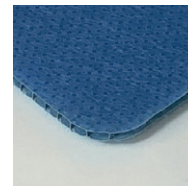

Wellplast® R, Recycled
Smooth surface
From recycled PP
2-10 mm
Light and robust
100% PP

Wellplast® Flexi SOFT
Nonwoven surface
Scratch protecting
3,5 mm
Stiff in one direction,
flexible in the other

Wellplast® SOFT
Nonwoven surface
Scratch protecting
2,5-5 mm
Heat laminated,
emits no glue
100% PP

Wellplast® SOFT20
Nonwoven surface
Scratch protecting
2 mm
Suitable for one way
Heat laminated,
emits no glue
100% PP

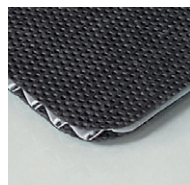

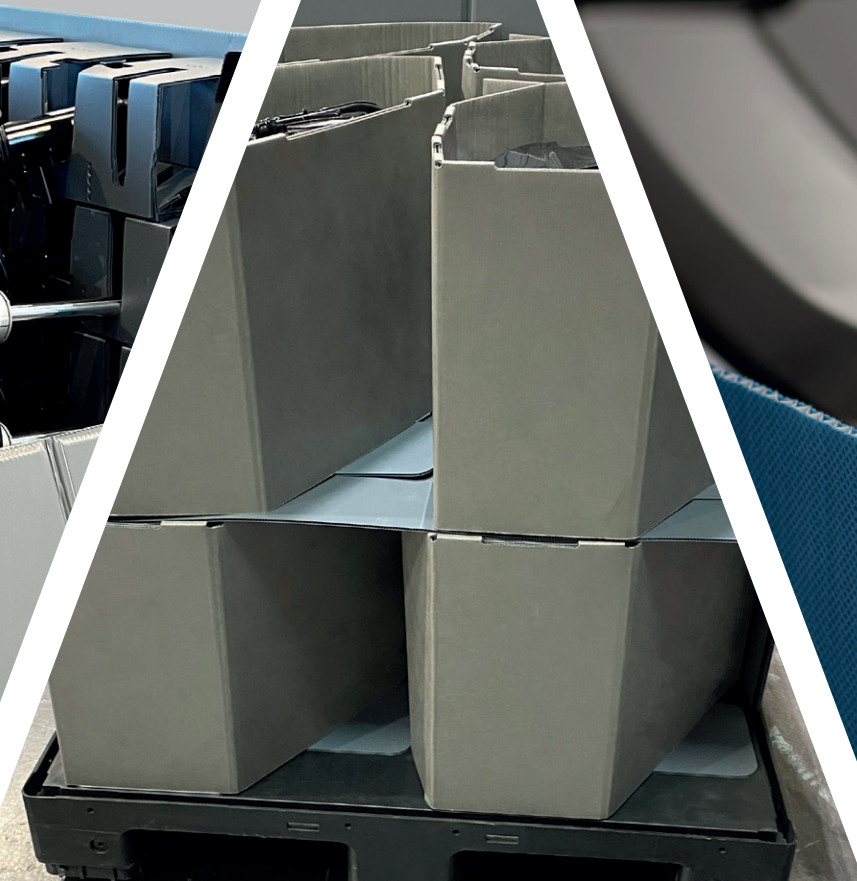

Wellplast® WCI
Corrosion Inhibitor
2-5 mm
Actively protects
metal parts from
corrosion
Clean handling

Trim panels exterior / interior

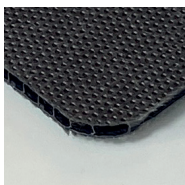

- Flexible materials
provides superior
nesting capacity
- Approved for class A
surfaces
- Easy handling
- Custom specific designs

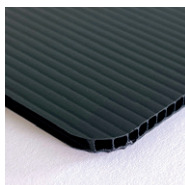

**Wellplast® Flexi
Soft ESD**

Nonwoven surface
ESD protection
3,5 mm
Stiff in one direction,
flexible in the other

Wellplast® Soft ESD

Nonwoven surface
ESD protection
2-5 mm
Heat laminated,
emits no glue

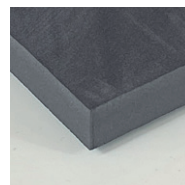

Wellplast® ESD

ESD protection
2-10 mm
Conductive

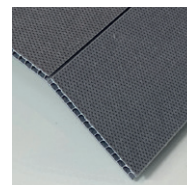

**Wellplast® EPP
Foam**

Extra support
50 mm

**Wellplast® EPE
Foam**

Extra support
15, 30, 50 mm
Protects sensitive
parts

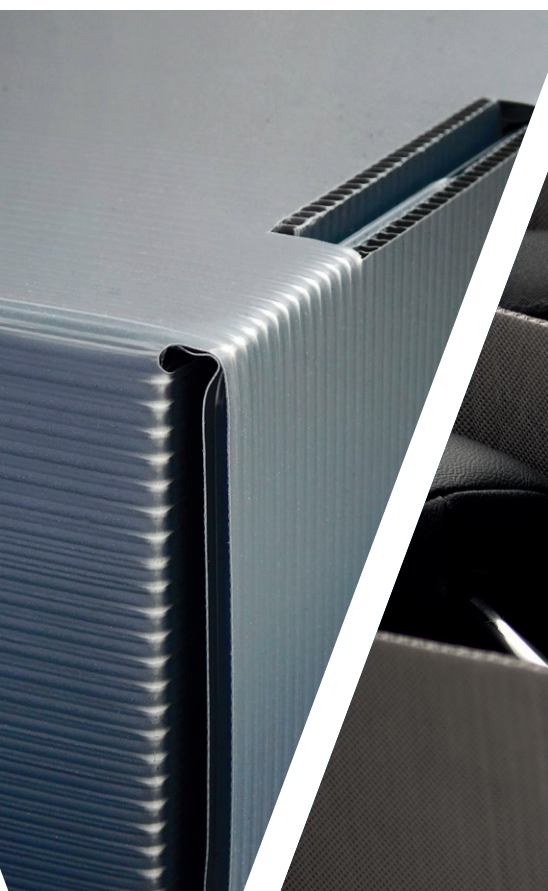

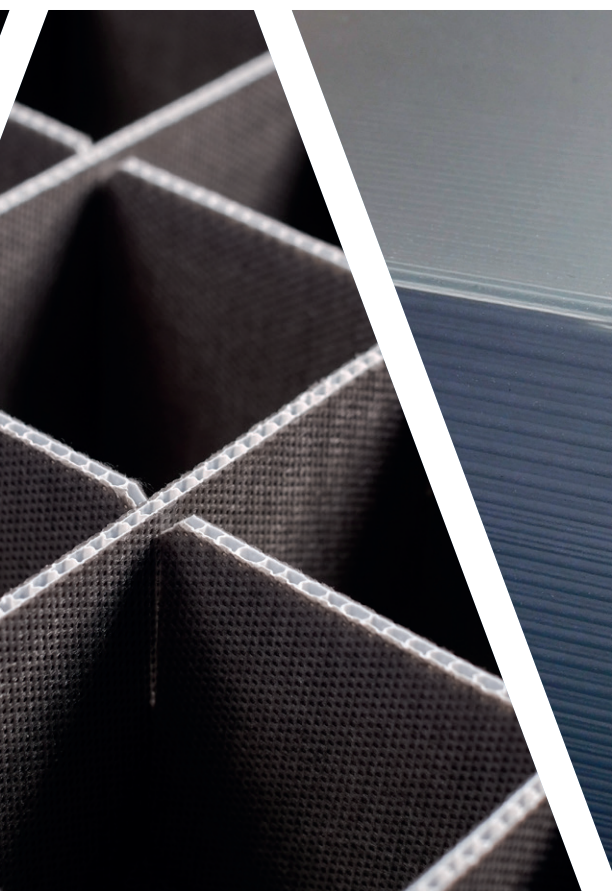

**Wellplast®
Flexi Cut**

Nonwoven surface
Scratch protecting
3,5 mm
bendable
Heat laminated,
emits no glue

Superior nesting capacity
for maximized filling ratio

Your partner for automotive packaging solutions

Innovation, reliability and flexibility are our key words. To maintain a long term relationship with our customers, our ambition is to exceed expectations, in service as well as packaging development. Wellplast is a full service packaging partner with in-house sheet production, packaging design department, conversion and production. We ship to customers all over Europe and North America.

Our unique materials, paired with our experience; from transport flow systems to line side handling, creates possibilities for effective packaging solutions. The Wellplast material range provides ESD and surface protection. The flexibility of Wellplast®FlexiSOFT enables superior nesting capacity for maximized filling ratio, easy handling and a foldability that ensures an effective return flow system.
