April 2012

Décor spices for poultry – the sizzle sells the steak!

With our dry seasonings we developed a range that gives an extra attractive visual appearance of the meat. They can be used without any problem in industrial application equipment because they are absolutely free-flowing and do not cake! The seasonings give in addition an even browning and minimise the water loss for the meat – so it is nice crispy on the surface and inside juicy and tender.

The décor seasonings are available in different delicate tastes and colours. Perfect for the barbecue pleasure with poultry and all kind of meat.

- ✓ Free-flowing
- ✓ No caking
- ✓ Crispy surface & juicy meat
- ✓ Even browning
