

## Extended standard range ser. 883 and 888CR Alcohol/Ethanol based fluids

October 2018

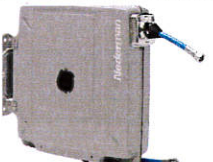

### Extended standard range ser. 883 and 888CR

In order to follow the development within automotive workshop usage of more aggressive fluids, we are now adding three versions of hose reels to handle **alcohol and ethanol based liquids** - such as windscreen fluid, brake fluid and glycol.

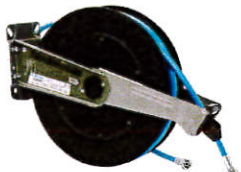

#### 30809683 Black

15m 3/8" Chemical resistant hose with 1/2" couplings. Stainless Steel swivel with PTFE (Teflon) seal. For mixed\* fluids, non Ex.

#### 30809783 Grey

15m 3/8" Chemical resistant hose with 1/2" couplings. Stainless Steel swivel with PTFE (Teflon) seal. For mixed\* fluids, non Ex.

#### 30806888 CR, Ex IIB 3GD Tx

15m 3/8" Chemical resistant hose with 1/2" couplings. Stainless Steel swivel with PTFE (Teflon) seal. For non-mixed\* fluids.

 \*These fluids are used both as mixed a non-mixed. In case of non-mixed, the Ex version must be evaluated.
