# Eaton. The fifth element of converged infrastructure

Power protection is so essential to the safe operation of converged architectures that it should be regarded as the fifth element of a complete converged infrastructure solution, alongside servers, storage, networking and software. A power management system from Eaton – consisting of an intelligent UPS, an appropriate power distribution system, and comprehensive power management software – ensures data integrity, business continuity and resilience. Eaton's virtualisation solution extends network runtime, protects critical equipment and allows you to view and manage your entire power system from your existing virtualisation dashboard. Eaton works with partners like EMC to provide the ultimate power protection that is completely integrated with converged infrastructure offerings.

# Powering your VSPEX environment

Eaton integrates seamlessly with VSPEX

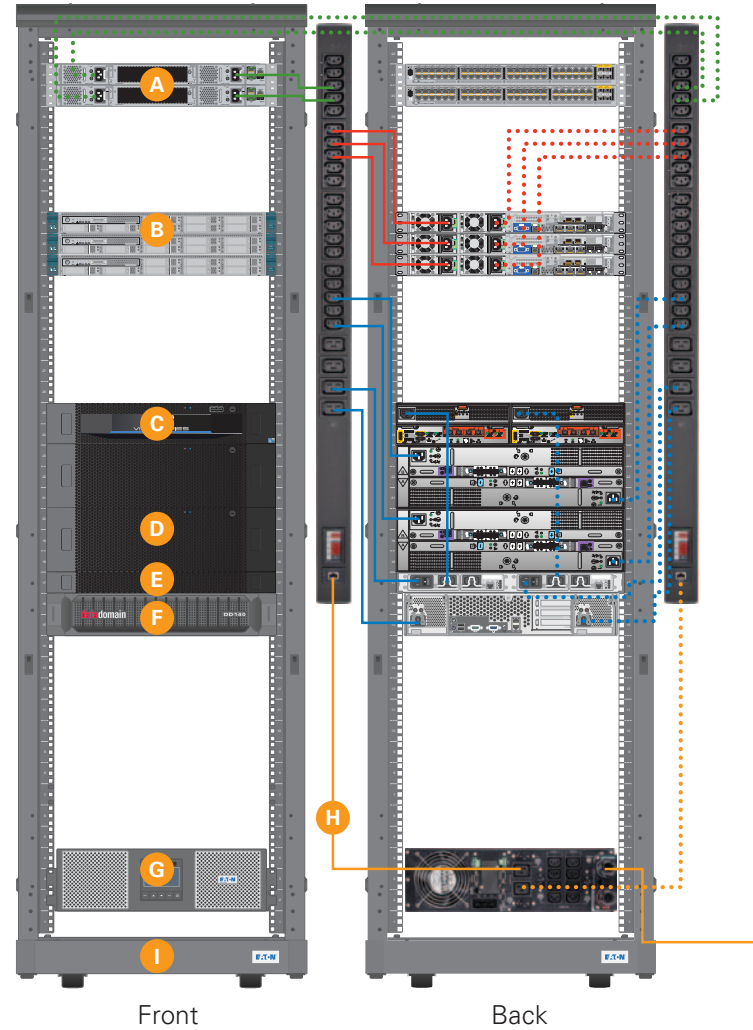

## Why Eaton?

- Integration/Control** – Eaton's Intelligent Power® Manager software uses a simple dashboard display that seamlessly integrates into the VMware's vCentre, Citrix's XenCentre and Microsoft's SCVMM. This added functionality allows you to easily automate the ability to move, consolidate or suspend virtual machines (VM) in the event of a power disruption. If you can't move your VMs to a safe place, we offer remote agentless shutdown to gracefully bring down your system and avoid data corruption.
- Partnerships/Support** – Eaton collaborates with EMC, Cisco, VMware, Citrix, Microsoft to offer a physical and virtual infrastructure that seamlessly integrates into the VSPEX environment. We are committed to these ongoing partnerships so that we can offer our customers many different integration points within the server, storage and networking layers. Our service and support organisations have global reach and the capability to deliver service 24/7, when and where you need it.
- Scalable/Flexible Designs** – Power requirements are unique to the locations they reside and constantly change with new business requirements. At Eaton, we anticipate these changes, designing platforms that scale for hyper growth but incorporate well into existing IT environments.

# Private Cloud – 50 Virtual Machines

- A** Cisco Nexus 3048 Switches
- B** Cisco C220 M3 Servers
- C** EMC VNxe3150 Processor Enclosure
- D** EMC VNxe3150 Expansion Enclosure (3.5")
- E** EMC SPS 1.2kW
- F** Data Domain DD670
- G** 9PX UPS
- H** Eaton Monitored ePDU
- I** Eaton RP-Series Rack

# How Eaton fits into the virtual landscape

Eaton's solutions integrate seamlessly into VMware's vCenter and Citrix's XenCenter dashboards. Our products provide not only the reliability and flexibility you need to adapt to an ever-changing virtual infrastructure, but they are also backed up with software that expands the capabilities of your virtual environment.

Eaton's Intelligent Power Manager is VMware Ready.

## Eaton integration with virtual environments:

	VMware	Citrix	Microsoft
Shutdown virtual machines	★	★	★
Trigger live migration	★	★	★
Manage virtual machines and power through a single pane of glass	★	★	
Real-time notification of power outages	★	★	★
Virtual desktop infrastructure integration	★	★	
Shutdown a host in a cluster without installing software on each host	★	★	
Virtual appliance	★	*	*
Disaster avoidance, recovery site backup	★		
<b>Cost</b>	Free up to 10 nodes (UPS or ePDU)		

\* OVF compliant; fully tested on VMware

## Eaton also:

- Offers Cisco Energywise Certified products
- Offers open-source solutions
  - Key contributor to NetworkUPS tool project (NUT)
  - Open Virtualization Alliance member
  - Eucalyptus and Debian partners

Eaton is dedicated to ensuring that reliable, efficient and safe power is available when it's needed most. With unparalleled knowledge of electrical power management across industries, experts at Eaton deliver customised, integrated solutions to solve our customers' most critical challenges. Our focus is on delivering the right solution for the application. But, decision makers demand more than just innovative products. They turn to Eaton for an unwavering commitment to personal support that makes customer success a top priority.
