Process Nordic 2021

Process Nordic is the only Swedish newspaper with a holistic approach to the Process Industry – and covers all industries with industrial processes.

With more than 40,000 readers Process Nordic – paper magazine, e-mail magazine, web-site processnet.se and the weekly newsletter – stands out as the obvious and natural marketing channel, particularly for the Process Industry suppliers.

Half of Process Nordic readers have production and operational responsibilities, four out of ten readers in management, three out of ten readers have sales and marketing responsibilities.

We will continue the coverage of the technical and commercial developments in Automation. We will in the coming year deepen our coverage of the Steel- and Mining Industry and also highlight Maintenance issues, which are more and more seen as a strategic part of the production.

Process Nordic cover the exciting technological forefront. There is the journalistic challenge – where our readers deserve to be.
