# TBEN-S Ultra-Compact Multiprotocol I/O Modules

# Ultra-Compact Multiprotocol I/O Modules in IP67

## Your advantages

- The ultra compact TBEN-S block I/O modules are the smallest multiprotocol Ethernet block I/O modules on the market.
- Multiprotocol: one module, three protocols
  - Extended temperature range -40...+70 °C
  - High degree of protection IP65, IP67 and IP69K
  - Ultra-compact design (32 x 144 x 31 mm)
  - Lightweight construction
  - Easily mounted
  - Two M8 connectors for Ethernet
  - Consistent diagnostics concept
  - Easily configured
  - Web server integrated in each module

EtherNet/IP™

## Digital I/O modules

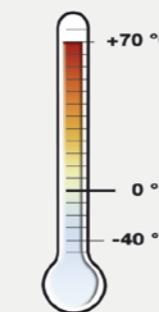

- The TBEN-S product series includes digital modules in 8 x M8 and 4 x M12 connection technology.
- Digital inputs with channel or group diagnosis
  - Digital outputs 0.5 A or 2 A
  - Field Logic Controller (FLC) programmable with ARGEE
  - Extended Functions: Counter, PWM, Impulse Stretching, Latched Inputs

EtherNet/IP™

## Multiprotocol

All Turck multiprotocol I/O modules can be run "out of the box" in the Ethernet systems PROFINET, EtherNet/IP™ and Modbus TCP. Thus, you can operate a machine with a single I/O level at different control systems.

## Harsh environmental conditions

The TBEN-S product series is designed for use in harsh industrial environments. These include the extended temperature range of -40...+70 °C and the high degree of protection IP65, IP67 and IP69K.

## FDT/DTM configuration

The DTM of the TBEN-S I/O modules can optionally be used in conjunction with PACTware or other FDT frame applications for configuration. In addition to parameterization and diagnostics the tool is very helpful for commissioning. With the graphical user interface you can read and simulate process data without using a control.

## Web server

The on-board web server supports during commissioning, maintenance and diagnostics. Settings such as the IP address or PROFINET name can be adjusted without additional tools. The web server clearly displays diagnoses and general system information in plaintext.
