

Super-resistant,

all-around protection!

PROPAFLEX is an innovative product designed and patented by PROPACK to guarantee a total and a high quality protection for all products sold in rolls and not only.

PROPAFLEX is a plastic sheet made thanks to a special production process to obtain two different surfaces:

- the inner surface is smooth and perfectly adheres even to rounded surfaces, protecting them with the maximum efficacy
- the outer surface is specially undulated in order to reduce friction with other materials, but above all is capable of withstanding violent impacts, heavy weights, shocks or compressions without any problem

PROPAFLEX is designed to satisfy the needs of the major steelmakers and the most important cable manufacturers in the world, but it can also be adopted in many other manufacturing industries applications.

PROPAFLEX is:

- 100% recyclable
- Resistant
- Sealable
- Flexible
- Weatherproof
- Easy to use
- Safe

Protection during handling

To solve problems caused by:

Impacts

Compression and friction

Atmospheric agents

| Weight per m <sup>2</sup> | g/m <sup>2</sup> | 1550<br>(1490÷1610)        | 1800<br>(1720÷1880)         | 2080<br>(2000÷2160)        | 2080<br>(2050÷2110)        |

Technical data common to all types:

- Inner core diameter 76 mm
- Width from 50 to 1500 mm
- Maximum outer diameter of roll 1000 mm
- Nominal length 100 m

On request **PROPAFLEX** can be produced with:

- Printing and personalized colours
- Anti UV and/or Anti-Slip (AS) treatment
- A strapping integrated band

**Standard colours of the outer shaped surface:** blue, white, black.

#### CERTIFICATIONS AND REGULATIONS

**PROPAFLEX** is certified according to Hamburg BFSV standard for cable protection.

Super-resistant, all-around protection!
