# WELCOME TO:

#activeprotectionforyou

# OVERVIEW

We propose to deliver a fast, fully portable sanitisation/disinfectant pre-pressurized spray system that requires no external power sources. This is completely alcohol free and meeting standards BSEN1276 and BSEN1650.

The Sanitisation/Disinfectant solution deals rapidly and effectively with a wide range of bacteria, viruses (Type A and Enveloped), fungi and moulds.

This is important as it delivers a fast, fine mist of sanitisation/disinfectant to any surface to ensure every area is reach and covered, With fast application and drying times.

# PRODUCTS

## Aerosol & Canister

- Kills 99.9% of bacteria
- Zero set-up time
- Meets the requirements against active growing bacteria and fungi of **BS EN 1276** and **1650** for food handling area sanitisation/disinfection
- Fully Portable, No external Power source required
- Alcohol-free – This means there is no issue with skin drying, irritation, flammability or even substance abuse
- Active biocides – This gives effective and residual action – unlike alcohol-based products
- Unique “dual-quat” – Providing effective control of the widest range of microorganisms, including bacteria, viruses and fungi
- Non staining
- Non corrosive
- Provides streak-free finish on most surfaces including Glass and Stainless Steel

## Canister

- Up to 15 full ambulance sanitisations
- Available with 4 metre hose
- Completely non-flammable delivery system

# LITERATURE & SALES PACK

The desire is to send out a simple, consistent, informative pack to interested companies once they've been qualified that we will deal with them as a distributor.

This will include:

1. TDS
2. SDS
3. Product Info Flyer
4. Price List

## SANITISER DISINFECTANT SPRAY

500ML & 22LTR

---

**Ramsol® Sanitiser Disinfectant Spray** contains active biocides, specifically designed for the cleansing and disinfecting of hard and soft surfaces. The Ramsol® spray is a revolutionary mist spray designed to sanitise and disinfect difficult to reach and intricate areas with full surface coverage. The ingredients within this product deal rapidly and effectively with an extensive list of bacteria, viruses, fungi and moulds.

The ingredients have been tested effectively against small non-enveloped viruses (hardest-to-kill category). Viruses in this category can include Poliovirus, Norovirus and Feline Calicivirus. The ingredients have also been tested effectively against enveloped viruses (easiest-to-kill category). Viruses in this category can include Coronaviruses and Type A Influenza's.

On 10th of March 2020, the American Chemical Council issued the COVID-19 developed method of the ability of Chemicals to be used for the protection of the public. Ramsol has been proven to be proven to kill the virus. However, products that are effective against non-enveloped viruses (hardest-to-kill category) may be more effective against enveloped viruses.

**ACTIVE PROTECTION FOR YOU**

**ADVANTAGES**

**Aerosol & Canister**

- Kills 99.9% of bacteria
- Zero set-up time
- Meets the requirements against active growing bacteria and fungi of BSEN 1276 and 1650 for food handling area sanitisation/disinfection
- Fully Portable, No external Power source required
- Alcohol-free – This means there is no issue with skin drying, irritation, flammability or even substance abuse
- Active biocides – This gives effective and residual action – unlike alcohol-based products
- Unique 'dual-quat' – Providing effective control of the widest range of microorganisms, including bacteria, viruses and fungi
- Non-staining
- Non-corrosive
- Provides streak-free finish on most surfaces including Glass and Stainless Steel

**Canister**

- Up to 15 full ambulance sanitisations
- Available with 4 metre hose
- Completely non-flammable delivery system

**AREAS PRODUCT CAN BE USED**

**National Health Service**

- Hospitals | Fire Brigade | Mountain Rescue | Helicopters
