ABOUT NORDISKE MEDIER

Nordiske Medier is the largest industry specific media in Scandinavia with more than 50 regular publications in Denmark, Sweden and Norway – both printed and online. Furthermore, we publish more than 100 different special magazines and newsletters. Our content is always highly prioritized, clearly defined and tailored for a specific audience

We cover Nordic business in detail with constructive, credible and independent news. On a daily/weekly basis, Nordiske Medier sends out online newsletters to more than 550.000 recipients and we have approximately 450.000 readers of our print media.

In total Nordiske Medier, have approximate 200 employees based in Copenhagen, Aalborg, Oslo, Stockholm, Gothenburg and Helsingborg. We have a total turnover of more than 200 million DKK and are a solid company with a good economy.

The editorial team consists of around 75 journalists and editors working across multiple industries. We cover the ongoing news stream, do in-depth industry analyses, portraits, articles etc. We always focus on inspiring the companies of whom we write. In addition, we focus on

delivering high quality content to our readers who are experts within their individual industries.

Sales wise we are an equally large team of consultants who advise our customers in creating the right marketing palette through the right channels. This, of course for the right audience.

Our products include print media, online media and consulting for search engine optimization, and social media platforms. Finally, we have a team of writers and graphic artists who can help create our costumers creating their banners, ads, native advertising, inserts etc.

Unlike the more general media, we write about both large and small companies. Our focus is on the overall technological, political and cyclical conditions that affects the industries. Not least, what happens at the businesses in the industry including colleagues, customers and suppliers.

Nordiske Medier is a part of NORDJYSKE MEDIER, a group whose history dates more than 250 years back and is one of the central actors within the Danish media industry.

TARGET GROUP

Users of Food Supply

Food Supply uses permission marketing, which is highly effective within internet marketing. We contact all key figures in the industry by phone, in order to get their acceptance prior to adding them to our newsletter. The majority says yes to a subscription to our daily newsletter. Furthermore, we also have a group of people, who subscribe to our newsletters on their own initiative. There is an on-going renewal of the recipients due to job change or similar reasons. Every month, we cancel subscriptions, if the newsletter continually bounces back to us. The number of subscribers reflects the majority of important people and decision makers within the industry. What is more, we never pass on email addresses to a third party, when we add a subscriber.

The newsletter is sent out daily to over 14,900 persons within the industry. Food Supply has over 680 companies as members in Denmark, which actively uses the portal in their everyday work. We cover companies widely spread all over Denmark, and in all sizes.

The user profile and the subscribers of our newsletter are characterised by the fact that they are decision-makers. In other words, they are primarily business managers, purchasing managers, production managers, sales managers etc. Add to this, salespersons and buyers in general, because they use the newsletter in order to keep themselves updated about what goes on in the industry.

EFFECT AND POSSIBILITIES

The newsletter is sent out daily to over 14,900 individuals and unique visitors on the portal are on an average 3,500 and 4,000 a day, with an average of 2 page views.

The combination between insertions in the newsletter and the portal, advertising in the newsletter and banner advertising makes it possible to gain a variety of marketing advantages, compared to traditional marketing.

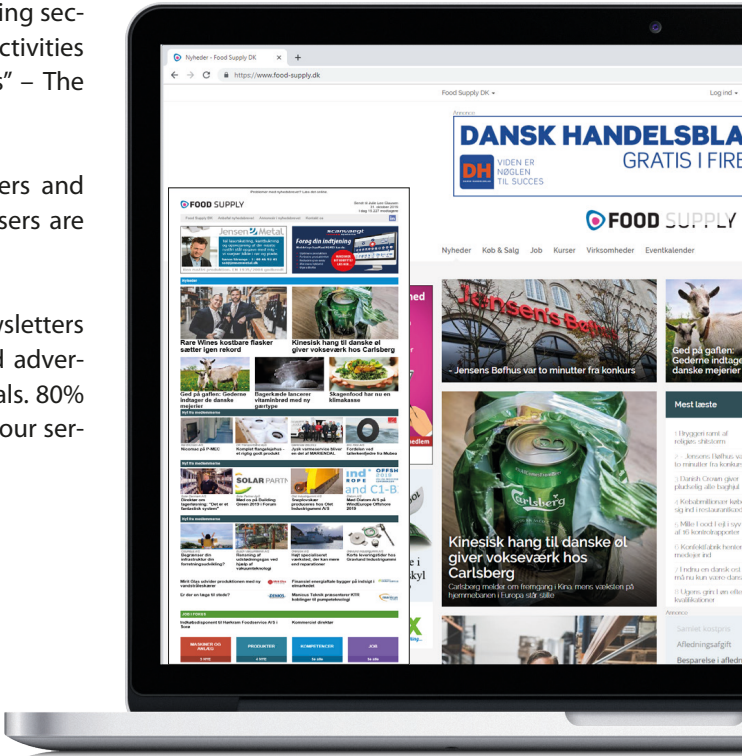

- Advertising usually takes place over a longer period of time, which is convenient for most companies and their continuous need for marketing.
- What is more, the adverts are targeted towards specific market segments and decision makers. 50 views by the right people, is of course more effective than 50,000 views by random groups of people. The individuals we sign up for our newsletter are mainly business managers, purchasing managers, production managers and development managers.
- Marketing via the internet is much cheaper compared to the outcome than marketing via traditional media sources, direct mails etc. Compared to all other media types, the exposure is much higher.

- The construction of the degree of knowledge is either available through frequent views of either insertions or adverts. In a world where customers seek information themselves, new skills and new subcontractors online, the most important aspect when it comes to marketing is to create brand awareness.
- The immediate road from Attention to Response. Besides information about the number of views and thereby the brand awareness, we also deliver information on the number of direct clicks from adverts to the website.
- Your insertions are available whenever the customer has a current need, and seeks a solution. It does not matter whether the customer seeks information via the portal or search engines.
- Direct access to your contact information, which makes it easier for the customer to seal the deal faster.
- Search engine optimisation is an additional gain.

Based on these facts online advertising is a growing sector, while traditional advertising and marketing activities are diminishing. (source: "Dansk Oplagskontroll" – The Danish Audit Bureau of Circulations).

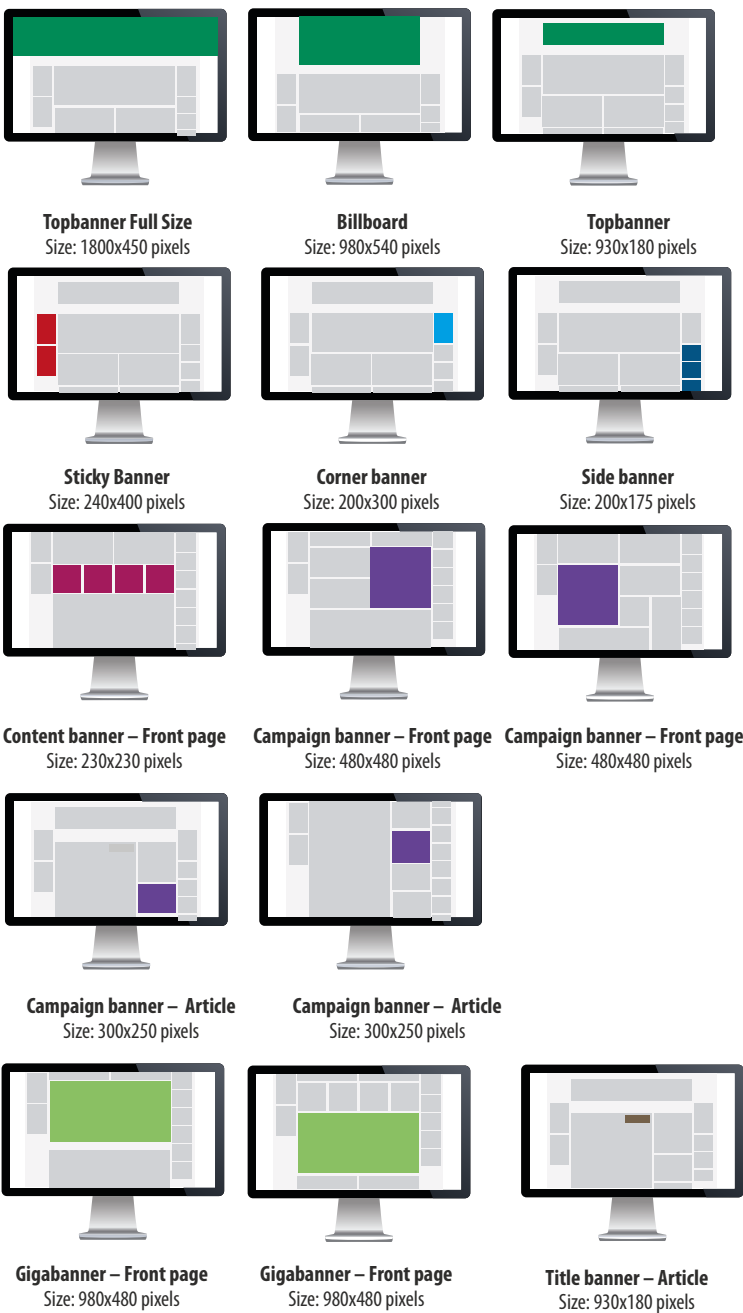

This synergy between the portal, the newsletters and advertising is also the main reason why advertisers are advised to become members.

All advertisements on the portal or in the newsletters are relevant for the industry. You will never find advertisements for phone companies etc. on our portals. 80% of our readers find that is an important factor in our services.
