## Plast Forum

---

**We are close to the Danish plastics industry.**  
The industry media [plastforum.dk](http://plastforum.dk) & Magasinet Plast deliver news, insight, and perspective to the Danish plastic producing and plastic processing industry.

We tell stories that inspire and bring the best stories from the creative and dedicated industry.

[Plastforum.dk](http://Plastforum.dk) is concerned with the news that is delivered daily, and every 14 days, we publish a newsletter with an overview of the Danish plastics industry.

In our four annual editions of the printed magazine, *Magasinet Plast*, we go in-depth and behind the news flow with reports, news, and

background articles that provide perspective and insight into trends affecting the industry. Be it everything from energy optimization in production, 3D printing, recycling, automation, tool making, injection, and blow molding as well as other production methods.

We start from people, machines, and companies. We pass on good ideas and take the temperature on progress, adversity, technical challenges, material selection, and much more.

Our mission is to create excitement and inspire the industry.

# Target group & statistics

The background is a solid dark blue. It features several thin, white, curved lines that sweep across the frame. One line starts from the left edge, curves upwards and to the right, then loops back down towards the bottom center. Another line starts from the top left, curves towards the right, and then loops back down towards the bottom right. A third line starts from the top right and curves downwards towards the bottom right. These lines create a sense of movement and flow.

# Facts about Plast Forum

Plast Forums newsletter is sent out daily to over 5.600 people within the industry and has around 97 member companies who actively use the portal in their everyday lives.

The companies are located throughout the country and evenly vary by company size.

The users and the newsletter recipients are characteri-

zed by being decision makers – i.e. primarily directors, purchasing managers, production managers, and sales managers. Additionally, salespeople and buyers use our newsletters to stay oriented about their customers and suppliers.

Our newsletter recipients are all relevant recipients. We regularly contact all key people in the industry by phone, to ensure we hit the right target audience with our

newsletter. There is an ongoing change in the recipients of the newsletters in connection with job changes and the like.

We regularly unsubscribe recipients if the newsletter bounces back.

# Technical specifications - online

### Deadline

The deadline is agreed upon with the graphic designer, who forwards the booked advertising campaign, specifications, and the deadline.

### Delivery of finished material

The deadline for delivering finished material is two working days before start-up. Advertisement incl. a link to the landing page is sent directly to the e-mail: [online@nordiskemedier.dk](mailto:online@nordiskemedier.dk)

### Graphic assistance

If you need a graphic designer to help with your design, there are the following requirements for images, logos, and text.

- Images must be min. 80 DPI in the file formats .jpg, .tiff, .eps, .psd and .png.
- Logo and graphic elements are delivered as .eps or .ai vector graphics.
- The text is sent separately in a .docx format or the email with the material.

We must receive your material for production no later than ten days before the start advertising campaign.

When banners are ordered and reserved for two months min., we prepare the banners free of charge, otherwise, the price is DKK 500 per banner.

### Banner Advertising

Our website is responsive and adapts banners to display correctly on all screens. Please note that banners are readable on different screens.

The banners share space with up to 3 others. However, title banners stand-alone, while sticky banners share space with up to 2 others. The banners rotate when changing pages.

All banners can be either static or animated – HTML5, gif, or script – except the title banner. Animated banners come in the following formats: .jpg, .gif, .png or HTML5.

### Specifically for HTML5 banners

When delivering HTML, use a zip file with the entire source material. The zip file must be max. 10 MB.

HTML5 files that stay within a frame of 20 seconds are at an advantage. HTML5 files

are only used for banners on the portal, as the file type does not work with email programs. If HTML and script banners are not made responsive, we need a fallback banner for use on mobile and tablet screens.

### Guidelines for Advertisers

It must be clear to the readers what content is advertisements and what is editorial articles. Therefore, advertisements must differ in layout – both on the portal and in the newsletter, not to mislead readers into thinking that an advertisement is an article.

In general, we ask advertisers to use a font other than ours. On the website, the word "Advertisement" appears automatically just above the banner, but when advertising in the newsletter, the word "Advertisement" should appear at the top of the ad so that it is not beyond any doubt that it is an advertisement - we then follow the legislation in the area.

If we consider the advertisement too close to the editorial texts, we will request to change the font and/or add the company logo, making it clear that it is an advertisement.

We do this to comply with the rules drawn up by the Consumer Ombudsman. Furthermore, you must only market for your own company and products - i.e. no misleading or bad mention of the competitors - to comply with the Marketing Act.
