HIGH PERFORMANCE SPORTS FLOORING

HERCULAN OUTDOOR SPORTS FLOORING

A SPORTS FLOOR FOR EVERY APPLICATION

Herculan sports floors are among the best in the market and are known worldwide. More than 25 years of experience and passion for sport are incorporated in our floors, resulting in a versatile range high-quality sports flooring systems. In everything we do, we look for maximum quality and a minimal load for the environment.

Our sports floors are seamless and based on liquid applied polyurethane resins. There is always a sports floor that meets your needs in terms of sports, budget and other activities.

INNOVATION

Herculan highly values development and innovation. Our R & D department sets the bar high when it comes to guaranteeing a reliable base within our quality chain. Herculan has the development and production in their own hands. Installation of the systems is carried out by approved, exclusive and reliable Herculan partners of our outdoor sports floors. All of this makes us flexible and efficient. Our sports floors can compete with each competitor. We continuously anticipate future

regulations, sustainability of our products and the manufacturing process. Our outdoor sports floors are, among other, certified according to the requirements of Ecospecifier.

A SPORTS FLOOR FOR EVERYONE

Whether it's about a multifunctional sports floor or an athletic track for top sport or at recreational level, Herculan has the right sports floor for you.

Athletics on top level also requires a top level athletic track. All Herculan athletic tracks fulfill the highest demands according to IAAF. Depending on the wishes, demands and the budget, different types of athletic tracks are possible.

Our multi-functional Herculan outdoor systems fulfill the European standards according to EN 14877 for athletics and outdoor sports floors. We have several multifunctional outdoor systems you can choose of. The choice for Herculan sports floors is logical: more than 25 years of knowledge and experience, proven quality, seamless and sustainable.

ATHLETIC TRACK PAPENDAL

Papendal is the training center of the Netherlands and forms the setting for talented athletes for both indoor and outdoor sports. About 550 top athletes use the facilities on this top sport training center, of which 400 on a daily basis. Part of this complex is the beautiful, blue, athletic track, the Herculan SR Sprint. This track has been installed by our Dutch Herculan partner GCC Sport Surfaces. Big names like Daphne Schippers and Martina Churandy train regularly on this athletics track. We are proud that we were allowed to provide the synthetic athletic track for this important sports facility.

HERCULAN OUTDOOR SPORTS FLOORING

YOU CHOOSE PROVEN QUALITY

RESPONSIBLE CHOICE

Our many years of experience make investing in a Herculan sports floor a responsible decision. Test reports and certifications guarantee the quality we stand for. Our expertise guarantees that you will choose a sports floor that fully meets your wishes.

ENVIRONMENT

Herculan takes its responsibility when it comes to the environment.

Where possible we use environmentally friendly materials and renewable raw materials. We limit the amount of residual waste by, among other things, recycling. In this way we reduce our ecological footprint and we keep searching for new opportunities to protect the environment.
