Target group/users of Building Supply & Licitationen

Building Supply and Licitationen use permission marketing, which is highly effective within internet marketing.

We contact all key figures in the industry by phone, in order to get their acceptance prior to adding them to our newsletter. The majority says yes to a subscription to our daily newsletter. Furthermore, we also have a group of people, who subscribe to our newsletters on their own initiative.

There is an on-going renewal of the recipients due to job change or similar reasons. Every month, we cancel subscriptions, if the newsletter continually bounces back to us. The number of subscribers reflects the majority of important people and decision makers within

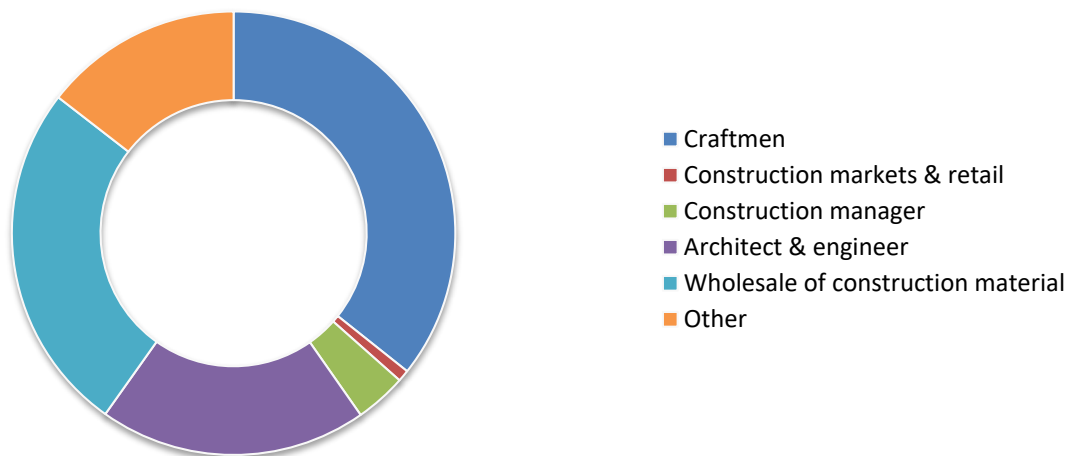

the industry. What is more, we never pass on email addresses to a third party, when we add a subscriber.

The newsletter is sent out to over 35.000 persons twice a day within the industry. Building Supply/Licitationen has over 1.250 companies as members in Denmark, which actively uses the portal in their everyday work. We cover companies widely spread all over Denmark, and in all sizes.

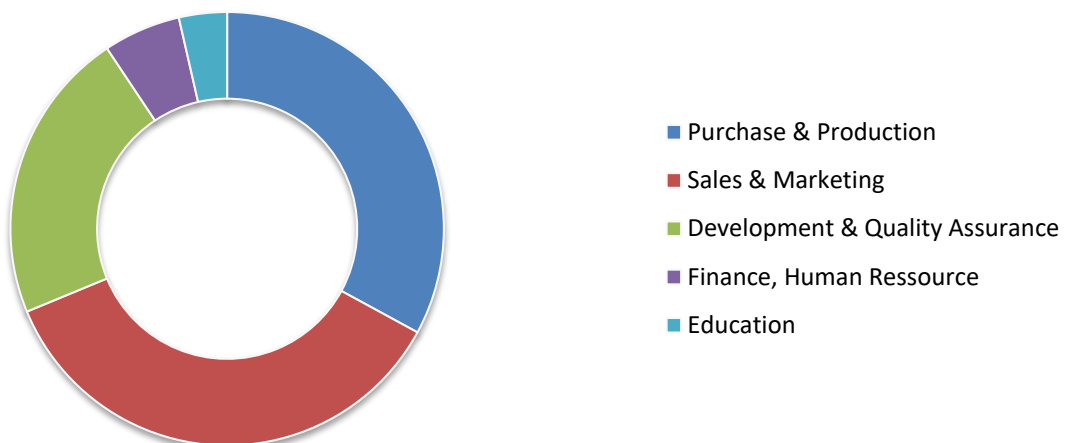

The user profile and the subscribers of our newsletter are characterised by the fact that they are decision-makers. In other words, they are primarily business managers, purchasing managers, production managers, sales managers etc.

Add to this, salespersons and buyers in general, because they use the newsletter in order to keep themselves updated about what goes on in the industry.

Effect and possibilities

The newsletter is sent out daily to over 35,100 individuals twice a day. Building Supply has on an average 8,000 unique visitors a day, with an average of 2 page views; whilst Licitationen has approx. 5.000 unique visitors a day.

The combination between insertions in the newsletter and the portal, advertising in the newsletter and banner advertising makes it possible to gain a variety of marketing advantages, compared to traditional marketing.

- Advertising usually takes place over a longer period of time, which is convenient for most companies and their continuous need for marketing.
- What is more, the adverts are targeted towards specific market segments and decision makers. 50 views by the right people, is of course more effective than 50,000 views by random groups of people. The individuals we sign up for our newsletter are mainly business managers, purchasing managers, production managers and development managers.
- Marketing via the internet is much cheaper compared to the outcome than marketing via traditional media sources, direct mails etc. Compared to all other media types, the exposure is much higher.
- The construction of the degree of knowledge is either available through frequent views of either insertions or adverts. In a world where customers seek information themselves, new skills and new subcontractors online, the most important aspect when it comes to marketing is to create brand awareness.
- The immediate road from Attention to Response. Besides information about the number of views and thereby the brand awareness, we also deliver information on

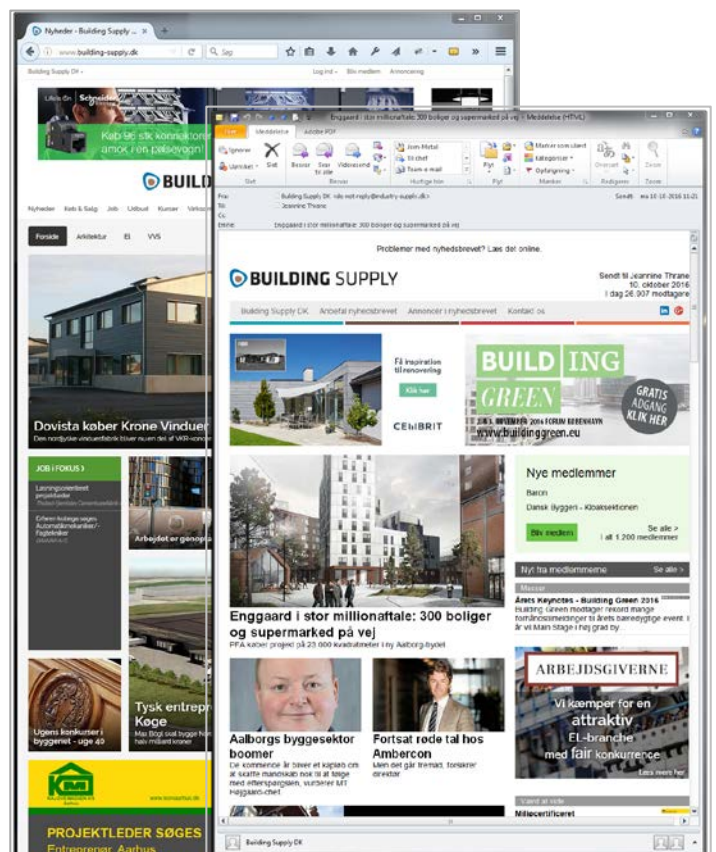

the number of direct clicks from adverts to the website.

- Your insertions are available whenever the customer has a current need, and seeks a solution. It does not matter whether the customer seeks information via the portal or search engines.
- Direct access to your contact information, which makes it easier for the customer to seal the deal faster.
- Search engine optimization is an additional gain.

Based on these facts online advertising is a growing sector, while traditional advertising and marketing activities are diminishing. (source: "Dansk Oplagskontroll" – The Danish Audit Bureau of Circulations)

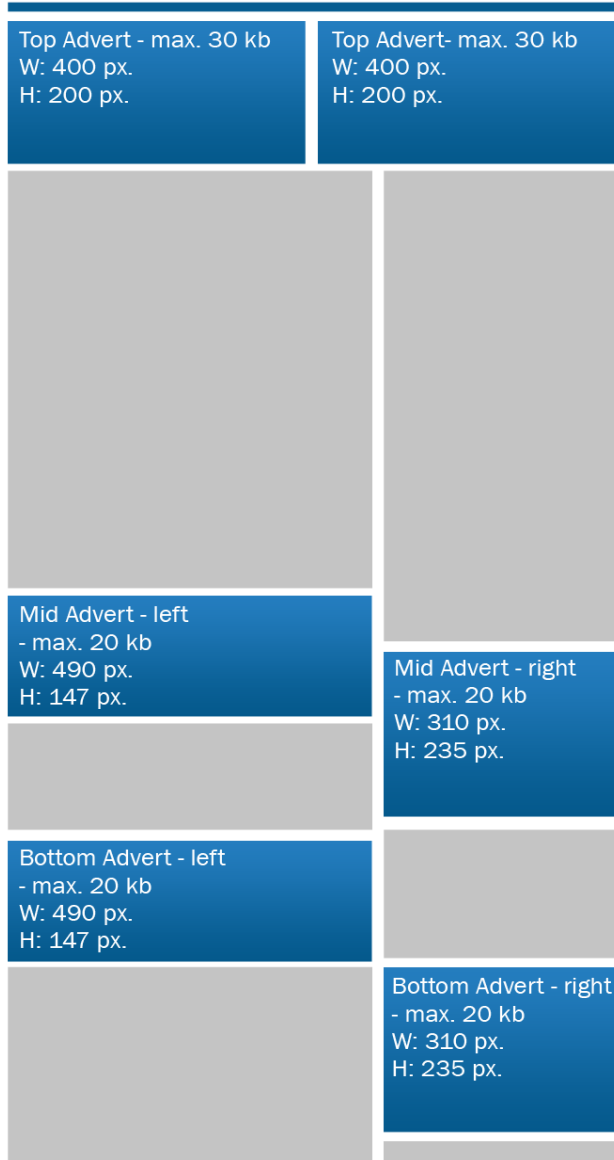

This synergy between the portal, the newsletters and advertising is also the main reason why advertisers are advised to become members.

All advertisements on the portal or in the newsletters are relevant for the industry. You will never find advertisements for phone companies etc. on our portals. 80% of our readers find that is an important factor in our services.
