TEKNOLOGISK
INSTITUT

Metrology Training Courses 2021

The Danish Technological Institute carries out training courses in calibration and measurement techniques. The training courses are in English.

Metrology Training Courses 2021

Static Pressure

Danish Technological Institute,
Aarhus:
22 to 23 November 2021

- Basic measurement concepts
- Why measurements sometimes do not work
- Measurement design and assessing the uncertainty
- Making measurements traceable
- Principles of calibration.

DKK 9,306
excl. VAT
Read more at:
www.dti.dk/k27666

Contact Thermometry

Danish Technological Institute,
Aarhus:
17 to 18 May 2021

- Basic measurement concepts
- Why measurements sometimes do not work
- Measurement design and assessing the uncertainty
- Making measurements traceable
- Principles of calibration.

DKK 9,306
excl. VAT
Read more at:
www.dti.dk/k27663

Uncertainty Analysis

Please contact:
Peter Friis Østergaard
+45 72 20 16 88
peo@teknologisk.dk

- Basic measurement concepts
- Why measurements often do not measure what we want them to
- Measurement design and assessing the uncertainty
- Making measurements traceable.

DKK 9,306
excl. VAT
Read more at:
www.dti.dk/k27661

Measurement of Humidity and Moisture

Please contact:
Mette Pedersen
+45 72 20 12 32
mo@teknologisk.dk

- Why measurements sometimes do not work
- Measurement design
- Making measurements traceable
- Principles of calibration
- Assessing the uncertainty in measurements.

DKK 9,306
excl. VAT
Read more at:
www.dti.dk/k27665

Flow

Danish Technological Institute,
Aarhus:
25 to 27 January 2021

- Basic measurement concepts
- Why measurements sometimes do not work
- Measurement design and assessing the uncertainty
- Making measurements traceable
- Principles of calibration.

DKK 9,306
excl. VAT
