

The Industry Standard for Machine Builders

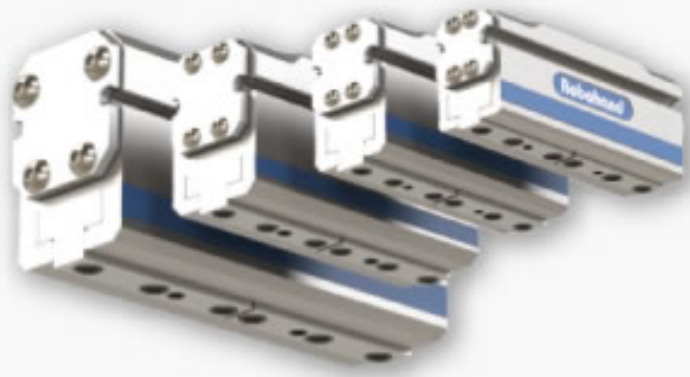

Introducing the new G100 Pneumatic Parallel Grippers

- **Shielded design** for dirty environments (no exposed roller bearings)
- **Smooth operation** with Rack and Pinion Design
- **Low profile** for constrained application space
- **Extended jaw** option compatible with SMC MHZ series

G100 at a glance

- 20 different models
- Four different bore sizes
- Wide range of stroke options (5mm to 50mm)
- Higher grip force, smaller package (56N to 568N)
