## Invitation to AMB in Stuttgart

September, 13<sup>th</sup> – 17<sup>th</sup>, 2016  
Hall 5, Stand C32

Dear Mr./Mrs. ...

AMB, the international exhibition for metalworking, is the leading industry trade fair in the even years. We gladly invite you to this really important trade fair.

This year we are celebrating in hall 5, stand C32 the world premiere of our successful new designed machine model, the **M40 MILLTURN / 4500mm**. WFL isn't going to mess around with the proven machine concept of the M40 MILLTURN with its' excellent qualities, but rather set its sights on improved efficiency and ergonomics. As of now we can offer in the swing diameter area up to 520mm a machine with maximum nominal centre distance with up to 4500mm.

A further machining highlight is the **M35-G MILLTURN**, being presented with diverse technologies. Moreover you can get information about the latest status of our 3D simulation software CrashGuard Studio inclusive Millturn PRO, for easy programming with the interactive programme editor.

Look and see the outstanding features of our turning-boring-milling-centres and visit us on our booth.

*Kindly find enclosed your personal admission code for a free day ticket.  
By activating the code on the Internet you get your admission ticket for free trade fair attendance immediately.*

We are looking forward to  
meeting you there!

Your WFL-Team
