

→ YEAR IN REVIEW 2024

As 2024 draws to a close, we take a moment to reflect on an eventful and rewarding year here at Geopal.

- *A New Chapter in Farum*
- *Connecting at Ajour*
- *New Team Members*
- *Recognition and Gratitude*
- *Celebrating Together*
- *What Will 2025 Bring?*

A New Chapter in Farum

One of our biggest highlights this year was moving into our brand-new headquarters in Farum.

After an extensive renovation tailored to our needs, we now have a space that perfectly accommodates our in-house production facilities, offices, service, and collaborative areas.

With this move, we've created the ideal environment to support our work in delivering reliable gas detection solutions.

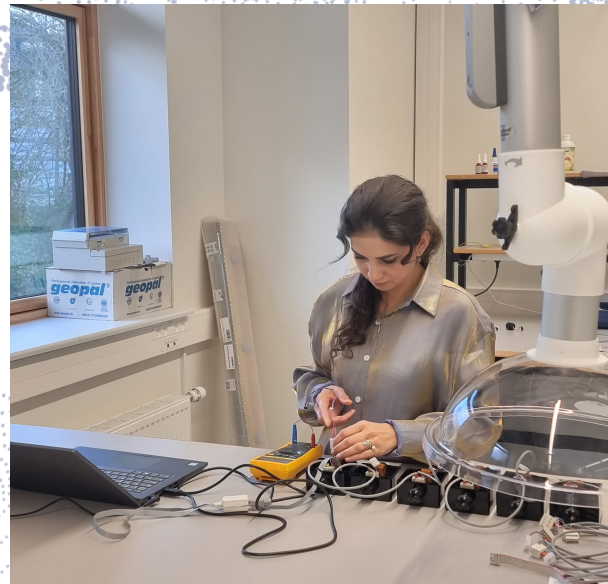

New Website Launched!

We also launched our new and improved website, designed to make it even easier for you to explore our solutions and services.

Visit us at www.geopal.dk

Connecting at AJOUR

This November, Geopal participated in the Ajour trade fair, a key gathering for professionals passionate about technology, safety and innovation.

Our team, represented by Christian Møller and Henrik Schou, enjoyed meeting industry colleagues and friends, discussing the future of safety, and showcasing our products.

New Team Members

2024 also saw exciting growth in our team as we welcomed Sola, who joined our production department, bringing with her diverse experience, dedication, and exceptional skills.

And we're excited to welcome our new service technician and sales support! They have joined us in December, and we look forward to introducing them in 2025.

Recognition and Gratitude

Our very own Christian Møller was nominated for the SMV Director of the Year award, recognizing his dedication and leadership in driving Geopal's success.

While he didn't take home the award, we are truly proud of this acknowledgment - he's a fantastic director and colleague, both professionally and personally.

This year, Christian also had the chance to visit some of our partners and installations in Iceland, including our gas detectors in parking facilities. It was a truly stunning and enriching experience, that combined breathtaking views with valuable insights into the applications of our solutions abroad.

Celebrating Together

2024 wasn't all work - there was plenty of time to connect and unwind!

We kicked off the year with a fun hands-on cooking class at Timm Vladimir's, complete with team bonding and cocktail-making.

In the summer, we enjoyed a tasty BBQ gathering filled with

good vibes and lots of sun.

We wrapped up the year with a fun and festive Christmas celebration with holiday food, ugly sweaters, and, let's not forget, the classic hunt for the almond hidden in the risalamande.

Here's to more great moments in 2025!

What Will 2025 Bring?

As we reflect on 2024, we're excited to share that next year marks a major milestone for Geopal: our 40th anniversary! We can't wait to celebrate this achievement and continue building on the foundation we've laid over the past four decades.

Thank you to everyone - our team, partners, and customers - who have been part of our journey this year.

Wishing you all a safe and successful transition into 2025, with many more milestones, connections, and innovations to come!
