Advertisement - Print

Expose your company in the right context

Ads in our print-media palette provide highly-effective visibility to most decision-makers in a specific industry since newspapers have more readers than other specialist media. Print ads have a long-lasting impact and significant branding value. So, even though there has been a significant development in the field of online advertising, we believe that print ads will make up a large portion of the overall advertising budget for many years to come. The print ads also appear in the electronic iPaper and the PDF edition.

Both editions can be accessed on both PCs and tablets and are simultaneously the newspaper readers' newspaper archive. We are continually working to optimize circulation to reach target audiences with greater depth and precision than that offered by other media. We do this so that we can continuously provide targeted advertising opportunities.

Moreover, we work with great flexibility in terms of formats here, including creative formats to increase the potential for greater attention - text and images do not always accomplish this by themselves. There is the option of placing an ad in the context of relevant editorial content, e.g. in sections and themes that will help boost the credibility of your marketing, ensuring that your audience not only sees it but reads it.

Target your marketing to be viewed in the right context. Nordiske Medier print releases tunes in on relevant focus areas in the respective industries. Take advantage of the opportunity to make your business visible in specific themes and special magazines.

Advertiser Guidelines
It should be clear to readers what are ads and what are articles written by the editors. Therefore, ads must differ from the layout - both on the portal and in the newsletter, so that readers are not misled and think that an ad is an article written by the editors.

In general, advertisers are asked to use a different font than ours. On the website, the word Advertisement appears automatically just above the banner. In contrast, on advertising in the newsletter, the word Advertisement should appear clearly at the top of the advertisement, if there is no doubt that it is an advertisement - so we follow the legislation in this area.

If we consider the ad to be too close to the editorial texts, we will ask to change the font and/or add the company logo so that it is clear that it is an ad. This is done to live up to the rules laid down by the Consumer Ombudsman.

Furthermore, you only have to market for your own company and your products - i.e. no misleading product comparisons or bad publicity of competitors - then the Marketing Act is also complied with
