

Question

What is the connection between Hong Kong Airport and DAN-doors?

...Slide to find out...

Answer

Hong Kong Airport just got an upgrade with several High Speed Doors from DAN-doors

Why? 

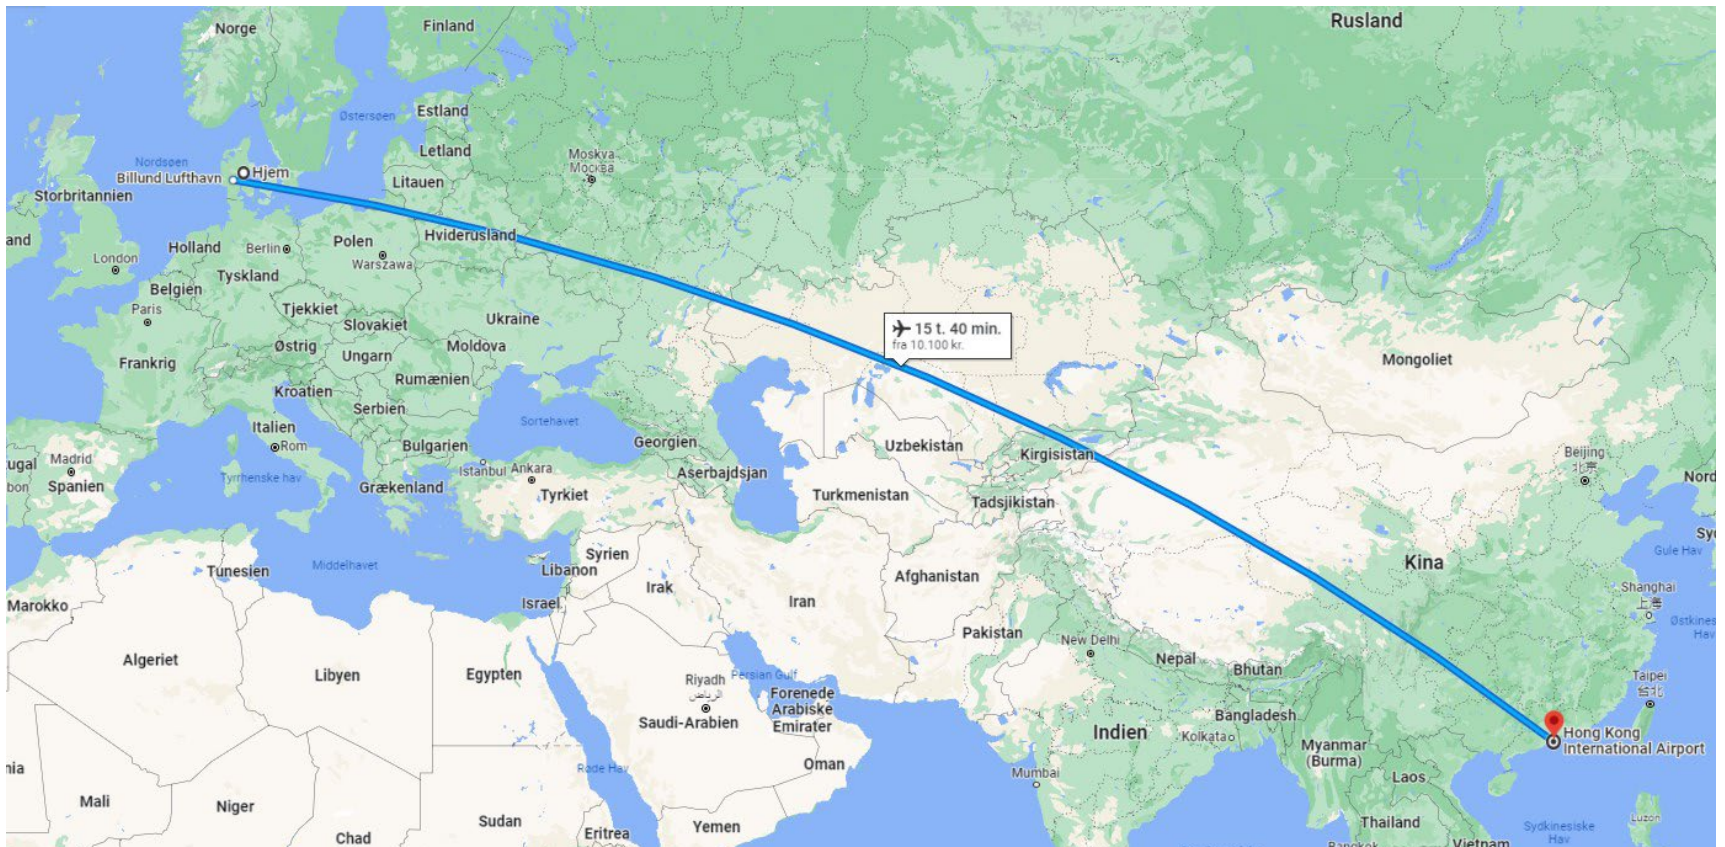

Solutions:

High Speed Doors for freeze:
AR0031F and AR0081F

Why did Hong Kong Airport choose to order door solutions from DAN-doors in Denmark?

Despite 9000 kilometres of transport...

Hong Kong Airport had some mandatory requirements for the door solutions:

2.

3.

Some areas
are down to
minus 28°

Excellent
Insulation
capacity

4.

High
Security
features

Build-in light
grid in the
frame and
automatic
access control

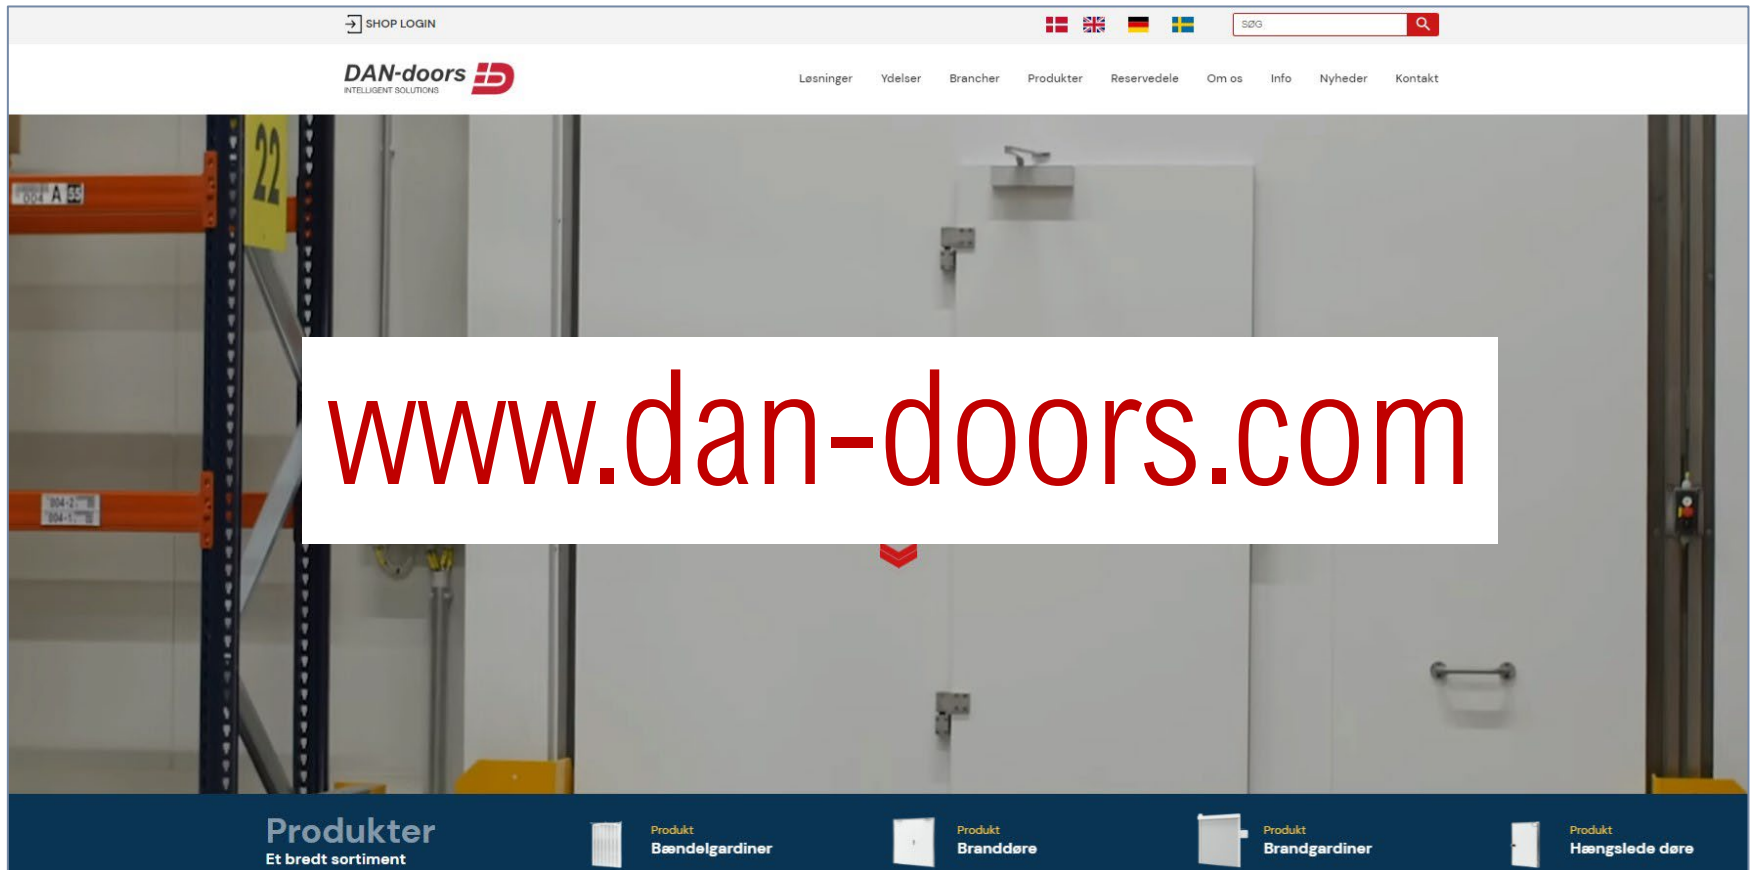

This is worth 9000 kilometres of transportation:

1. A very long service life and the ability to withstand collisions
2. Efficient work flow in high-traffic areas and a minimal energy loss during opening sessions
3. Minimal cold loss and the need for only one door solution in the freezer rooms
4. Optimum security.

Do you want to know more?

The screenshot shows the DAN-doors website homepage. At the top, there is a navigation bar with a 'SHOP LOGIN' link, flags for Denmark, UK, Germany, and Sweden, a search bar with the text 'SØG', and the company logo. Below this is a main menu with links: 'Løsninger', 'Ydelser', 'Brancher', 'Produkter', 'Reservedele', 'Om os', 'Info', 'Nyheder', and 'Kontakt'. The central part of the page features a large image of a white door in a warehouse setting, with a white box overlaid containing the text 'www.dan-doors.com'. At the bottom, there is a dark blue footer with the heading 'Produkter' and 'Et bredt sortiment', followed by four product categories: 'Produkt Bøndelgardiner', 'Produkt Branddøre', 'Produkt Brandgardiner', and 'Produkt Hængslede døre', each accompanied by a small icon.
