

PERSONALIZED CONTROL OF PRODUCTION

Atlas Copco ToolsNet 8 provides data collection for your tools. Documenting each tightening from every specific tool and station with full knowledge of every single end-product. This gives you the possibility to improve the tightening process, answer questions about every tool in production, and have every tool serviced and optimized for its task. The necessary information you need to extract – your way.

IMPROVE YOUR ASSEMBLY LINE

In everyday production you may need to keep control of service and maintenance. With Toolsnet 8 it is easy to get a complete overview of the assembly line to analyze productivity. Perhaps you need to monitor a certain station to improve on quality, or view the top NOK applications to find the applications with the highest failure rate for a configured part of the tool structure. Comparing stations, finding bottlenecks and improving quality -The information you need has never been more structured and accessible.

MINIMIZETHE IMPACT OF A RECALL

Documentation is important for insurance and legal matters. This is especially imperative when you need to back track it down to a certain tightening operation at a certain station on any given day.

TOOLSNET 8 DASHBOARD WIDGETS ARE PERSONALIZED VIEWS FOR YOUR SPECIFIC NEEDS

The ToolsNet 8 dashboard is modular giving you a direct overview of the production in the plant. Extracting and visualizing the information you find most interesting and important to monitor – any time. Every user can configure the dashboard in a way that best suits their needs.

Maybe you want a complete overview of the assembly line to analyze productivity. Or you need to monitor a certain station to improve on quality.

8

ToolsNet 8 will:

- Boost your productivity with reduced rework and less bottlenecks.
- Improve your quality by avoiding recalls tracking changes an finding the problems before they occur.
- Reduce service costs with preventive maintenance for your tools, reduced down time and faster reaction time with alert notices.

If you currently are working with ToolsNet 4000 you can install an upgrade to ToolsNet 8. Users of previous versions and first time users need to do a full installation of ToolsNet 8.

Get in touch with your Atlas Copco contact today. Learn more on www.atlascopco.com

TOP NOK APPLICATIONS

Shows the applications with the highest failure rate for a configured part of the tool structure.

RUNNING SPC

Shows the real-time X-bar and range charts for a configured application.

TOOL MAINTENANCE

Shows all the Power Focus tools in production that need service or calibration.
