**A growing path at
Prysmian Group**

**Prysmian
Group**

WHO WE ARE

WE ARE PRYSMIAN GROUP, LEADER IN ANTICIPATING THE WORLD'S ENERGY AND COMMUNICATIONS NEEDS. FROM ENERGY AND CONNECTIVITY, TO COMMUNICATIONS, WE MAKE LIFE BETTER FOR MILLIONS OF PEOPLE.

“Discover the possibilities of working for one of the world's leading infrastructure businesses”.

Valerio Battista,
CEO Prysmian Group

As the world's leader in the key energy and telecommunications markets and strongly positioned at the high-tech end of the energy and telecom cable sectors, the quality of our products is second to none, but we rely on the skills of our dedicated sales teams to drive growth in the business and manage relationships with our clients. We strongly believe our people are our most valuable asset, that is why we ensure constant investments ensuring our organizational needs match individual skills, capabilities and expectations.

WHAT WE BELIEVE IN

OUR VISION

We believe in the effective, efficient and sustainable supply of energy and information as a primary driver in the development of communities.

OUR MISSION

We provide our worldwide customers with superior cable solutions based on state-of-the-art technology and consistent excellence in execution, ultimately delivering sustainable growth and profit.

OUR VALUES

EXCELLENCE

Good isn't good enough. We combine rigour and entrepreneurship to deliver innovative all-around solutions.

INTEGRITY

When it comes to ethics, no challenge is too big, or too small, if it means doing things right.

UNDERSTANDING

We have a keen respect for different opinions and ideas, and a strong focus on customer needs.

A SNAPSHOT OF OUR BUSINESS

140 years of history	50 countries	88 plants	91% ISO14001
21.000 employees	5.000 patents	200 € million industrial investment annually	17 R&D centers

KEY FACTS

A one year production of our fibre optic cables covers the distance between the Earth and the moon 70 times.

Every year we supply 1.2 million tonnes of energy cable. That's the weight of 120 Eiffel Towers.

If you connected all the energy cables we supply in one year, you could wrap it around the equator 250 times.

FUEL YOUR PASSION WITH A SALES CAREER THAT OPENS UP TO THE WORLD

Joining our sales force, you'll be part of some of the world's boldest and most impactful engineering projects.

Prysmian Group, in fact, is renowned for pushing technological advances to the limit and setting new standards, bringing to life projects which might have seemed unthinkable before.

ONE WORLD TRADE CENTER THE FUTURISTIC RECORD SPEED EXPERIENCE

New York City, USA Rising from Lower Manhattan, part memorial, part beacon of hope, One World Trade Center, also known as the Freedom Tower, is the tallest skyscraper in the Western hemisphere. Standing at 1776 feet, its height recalls the year of the US Declaration of Independence. With over 70 elevators in use, and a range of sophisticated electrical systems, cabling was a feat of engineering. Overcoming all the engineering challenges, Prysmian Group has been able to provide power and connectivity: from the buttons in the elevator to the closed-circuit televisions, to the lighting and air-conditioning systems.

BURJ KHALIFA THE GREATEST AMONG THE GREAT

Dubai, Emirates Dominating the Dubai skyline, at 828 metres high, the Burj Khalifa is the tallest building ever constructed. Connecting its 162 floors are 57 elevators that reach a breathtaking 10 metres a second. Equally impressive is the length of high-tech, low voltage fire-resistant cable used in the Burj's electrical circuits, fire alarm systems, lifts and emergency lighting. Placed end-to-end, it would stretch to over 1,300 times the height of the tower.

MARINA BAY SANDS THE MOST SPECTACULAR ENTERTAINMENT DESTINATION

Singapore Designed to help improve Singapore's status as a global tourist destination, the luxury Marina Bay Sands Resort towers over the city. Labelled one of the world's most challenging construction projects, three towers are topped by an extraordinary 'SkyPark' offering 360 views and the world's longest elevated swimming pool. This only thanks to the key role played by Prysmian Group, not just a cable provider but an exclusive partner capable of ensuring its strong expertise and attentive assistance throughout the whole process.

WHO WE ARE LOOKING FOR

HELP US GROW EXISTING RELATIONSHIPS, AND CREATE NEW ONES.

We're hunting talented sales professionals eager to succeed and capable of moving in a heterogeneous market with resilience and a customer oriented approach. We're keeping an eye out for those who are passionate about a sales career in a world leading Group. Those who deeply understand the meaning of customer intimacy, who are ready to be part of a successful team. Those capable of putting themselves on the line repeatedly. Working with our recruitment partners, HAYS and CEB, we're looking for sales professionals with the skills and motivation to take on one of the below roles.

CANDIDATE PROFILE

- Passionate about a sales career
- High level of competency in the sales area with 3-5 years of experience
- Solid attitude to technical understanding
- Emphatic, fast and proactive
- Background in engineering, chemistry, materials or business
- Interest for the industrial environment
- Brave and hunter

RECRUITMENT
PARTNERS:

WE ARE HIRING IN

FRONT END SALES

Be customer oriented

You'll be responsible for developing a sales strategy for your assigned territory. You'll need to have a strongly customer oriented approach and the ability to discuss and make effective decisions independently.

Highlights: developing a highly effective distributor system, dealer network and customer base for your assigned channel, formulating a sales strategy, forecasting and budgeting, resourcing, training and managing a sales team if any. Being responsible for the commercialization of products and providing ongoing support to clients, growing relationships and building a proactive understanding of their business needs.

TECHNICAL SALES

Share the knowledge

You'll provide pre-sale and post-sale technical support to our customers, while helping our sales team better understand our solutions and the needs of their customers. Response speed, ability to discuss and make effective decisions independently together with a strongly customer oriented mindset.

Highlights: developing a full understanding of our product portfolio, offering technical support to customers and employees, giving technical guidance on sales presentations and materials, providing detailed product specs, proactively finding technical solutions to client problems and helping sales executives define scope and strategy of projects.

KEY ACCOUNT

Build relationship

As key client contact, be focused on a deep understanding of the needs of a wide range of large industrial and engineering companies across sectors, which you'll use to drive sales. A strong customer oriented approach is essential, with a constant positive, passionate and energizing approach.

Highlights: understanding of our product portfolio, offering technical support to customers and employees, giving technical guidance on sales presentations and materials, providing detailed product specs, proactively finding technical solutions to client problems and helping sales executives define scope and strategy of projects.

CUSTOMER CARE

Maintain a solid relationship

Managing standards of service for our customers, from internal processes, to day-to-day relationships. Seeking for innovation and a positive and energizing approach, being able to develop strong relationships within the organization and externally with customers.

Highlights: customer relationship liaison and management development and delivery of service standards, customer request management and order management, team management and development.

A GROWING PATH FOR YOUR CAREER IN OUR SALES TEAM

ANTONIO ESTEBAN NIETO, SPAIN REGIONAL SALES MANAGER

I have been working in Prysmian since 2010. I joined Prysmian Spain as a Key account manager for an Spanish utility company. After six months I moved to Mexico city being involved into telecom business within the area (US and Mexico) as well as promoting different products in Caribbean and central

American markets. After the wonderful 2 years' experience in Mexico, I was offered to take the responsibility of export area manager for OPGW in Middle East being based in Spain. Now I'm currently regional sales manager for telecom solution in Middle East based in Dubai, since last two years. From my experience Prysmian is plenty of opportunities for employees who are looking for an international career.

STEPHEN SZYMANSKI, USA VICE PRESIDENT OF TELECOM BUSINESS

I'm the Vice President of the Telecom Business in NA. The NA business makes up about 1/3 of our worldwide optical cable business, so the business is sizable even by Prysmian terms. I've been working for Prysmian for over 10 years and have been in the general industry for 20 years. Today I'm based in the

Columbia, South Carolina area which is adjacent to "Lexington," the NA headquarters. I also spent 5 years working in China in the same role I'm currently doing, but on a much smaller scale. In short, the professional and personal experiences gained living and working abroad were enriching. In these days I enjoy telling my Prysmian story to aspiring university recruits, professional level employment prospects and new hires.

OUR EMPLOYEES OWN A PART OF THE COMPANY

Since Prysmian Group rewards its employees' loyalty and efforts, thanks to the YES, our first Employee Stock Ownership Plan, we offer the chance to own a part of the business, buying a limited number of shares at a special discounted price. In the first three years of YES, 44% of Prysmian Group employees became shareholders. They bought 1.5 million of our shares with an initial investment of 17 million euros which now has a market value of 34 million euros.

BECOME PART OF A GLOBAL TEAM

The Prysmian Group helped connect some of the world's boldest engineering projects, pushing technological advances to the limit. Join us, and you'll play a part in bringing projects like these to life.

"The real difference within the commercial area in our industry is represented by the ability to combine technical intelligence with passion for people engagement. We need people capable of creating a virtuous spiral of progress with customers, linking our future to theirs."

Philippe Vanhille, FR
SVP, Telecom

"Selling means boosting business development and letting customers voice be heard within the organization. That's why we need passionate people about their job capable of deeply understanding market and customer needs."

Hans Nieman, DE
SVP Energy Products

"Engaging customers with a mutually beneficial interaction which set the basis for a trustworthy and long-lasting relationship is the key in the commercial area within this industry. That is why we are looking for energetic, intuitive and positive people to join us."

Massimo Battaini, IT
Energy Projects & CEO
Prysmian Power Link

"We are focused on customers. Our approach is aimed to provide them a compelling experience in a way that allows us to grow our business as a preferred partner. Be customer fanatic."

Cristiano Tortelli, IT
